NARRATIVE

SECRET

DECLASSIFIED

~~SECRET~~1. Special Operations

(a) During the month of September, units of MAG-16 participated in the following operations:

Operation Prairie
Operation Deckhouse IV

2. Chronological Summary of Highlights

1 September - Normal operations. VMO-2's medevac escort gunship destroyed one structure while laying down suppressive fire for HMM-263's nedevac aircraft in the DaNang TAOR.

2 September - HMM-164 launched two aircraft with an EOD team and a security force aboard to disarm two dud bombs approximately eight miles south of DaNang. A VMO-2 gunship was assigned to escort the mission. Intense small arms and automatic fire greeted the approaching CH-46's and on wave-off the number two aircraft was downed by a heavy caliber gun, believed to be a 57mm recoilless rifle. Under cover of the escort's suppressive fire, Maj REAP, the flight leader, landed twice to evacuate personnel from his wingman's crashed aircraft. For his action, Maj REAP was recommended for the Distinguished Flying Cross. On a separate mission, ten CH-46's of HMM-265 supported ARVN Operation "LAM SOM 310", weathered heavy small arms fire to lift 1126 ARVN Marines to their landing zone.

3 September - Routine operations. VMO-2's UH-1E gunship was credited with two kills while delivering suppressive fire and controlling an air strike to prepare the pickup zone for HMM-263's medevac. The Huey took one hit, but adequately neutralized the area for the H-34, and no friendly injuries were sustained.

4 September - Routine operations.

5 September - Normal operations. A VMO-2 Huey conducting an artillery mission for 3/9 was harassed by sniper fire. Adroitly shifting the barrage, the Huey silenced the sniper.

6 September - Normal operations. On a routine training flight, an O-1C of Det "A", H&MS-16, incurred mechanical failure resulting in a forced landing.

LtCol WATSON led a flight of six HMM-164 CH-46's on a two wave ARVN assault in Operation HOA PHIEN, carrying 182 troops.

On a visual recon flight in support of 3/9, two VMO-2 Hueys spotted six enemy advancing on the rear of "K" Company. Upon being spotted, the enemy opened up on the Hueys, damaging one. However the Hueys were credited with one confirmed kill and two probable kills.

SECRET

In support of Force Reconnaissance teams, Huey slicks and gunships made two emergency retractions of teams. One of these retractions was within 500 meters of the DMZ, and was effected in spite of heavy enemy fire.

7 September - Operating out of Phu Bai, the HMM-161 medevac aircraft settled into the trees on a hoist pickup and crashed. A flight of CH-46's from HMM-164 was dispatched to the scene to complete the medevac and rescue the H-34 crew. In the course of events, enemy fire was silenced by the VMO-2 Huey escort which used its own guns and brought in fixed wing strikes around the zone. The H-34 and reaction force were lifted out without incident.

8 September - Following the crash of HMM-263's medevac aircraft, the VMO-2 gunship escort dropped into the zone, jettisoned its rocket pods, and evacuated the H-34 crew plus two battle evacs. The Huey departed the zone with a total of eleven souls on board under light small arms fire.

On a TAOR recon flight, an H-34 from HMM-263 took five hits from ground fire, wounding one of the crewmembers.

10 September - On a TAOR recon flight, two Hueys from VMO-2 effected two secondary explosions while returning ground fire.

HMM-263's medevac aircraft received several hits from ground fire southeast of DaNang.

11 September - In support of Republic of Korea Marines, H&MS-16 SU #1 CH-37's lifted six and one half tons of cargo and 257 troops in the Chu Lai area.

In support of 1st Force Reconnaissance Company, four VMO-2 Hueys extracted a five man recon team under heavy enemy fire in the foothills west of Dong Ha. Neither hits nor casualties were suffered.

12 September - HMM-263's medevac aircraft took six hits from ground fire in one incident, with no injuries.

HMM-164 conducted the "Bird Control" mission without incident.

13 September - Two UH-34's from HMM-161 performed an emergency extraction of a recon team under moderate fire. VMO-2 gunships put down covering fire, and no damage or injury was sustained.

14 September - A section of CH-46's from HMM-164, led by Capt C. S. TUBBS, conducted an emergency troop retraction by hoist under enemy fire, but received no hits.

15 September - VMO-2's gunship, on an escort mission with HMM-161's medevac in the Phu Bai area, was credited with destroying a 57mm recoilless rifle and killing ten VC/NVA troops. Major J. R. ROBSON flew the mission under control of an Air Force FIC.

~~SECRET~~

16 September - HMM-263's medevac aircraft was hit on a mission in the DaNang TAOR, resulting in minor injury to two crewmembers.

Two VMO-2 medevac aircraft received a total of nine hits on a mission out of Dong Ha. Gunship escorts poured out four thousand rounds of 7.62 ammo in suppressive fire.

An HMM-161 pilot demonstrated superb aeronautical skill when intense enemy fire crippled his aircraft. The engine went to full power and was uncontrollable, but the pilot avoided a catastrophe by immediately initiating a climb into IFR conditions. Shutting down the engine at seven thousand feet, the pilot executed a perfect autorotation through the clouds to a small paddy, where the crew was evacuated safely.

17 September - An HMM-161 aircraft sitting in the command post landing zone of 1/4 took over four hundred hits when the CP came under mortar attack, but was sufficiently airworthy to be flown back to Dong Ha where the crew chief and gunner were treated for shrapnel wounds.

Four H-34's from HMM-263 took hits in the Dong Ha area. One was disabled in the LZ.

18 September - An HMM-263 pilot was wounded slightly when his aircraft was hit in the DaNang TAOR.

HMM-265 provided a flight of four CH-46's for a night emergency resupply to 4th Marines in the Dong Ha area, lifting a total of 13,300 lbs. cargo.

Two VMO-2 Hueys delivering suppressive fire for HMM-263 medevacs in support of 1/4 produced a secondary explosion.

19 September - Normal Operations.

20 September - Normal operations. Two O-1C spotter planes of Det "A", H&MS-16, were launched to support Operation Prairie at Dong Ha, and became a part of the permanent MAG-16 commitment there.

21 September - Normal operations.

22 September - Normal Operations. VMO-2 provided a Huey to take General WESTMORELAND on flight to Dong Ha, Khe Sanh, and Lang Vie.

23 September - Normal Operations. HMM-265 provided an airborne radio relay capability to a team from 1st Force Reconnaissance Company operating out of Dong Ha. Two aircraft were utilized for 24 hours.

24 September - VMO-2 Hueys on TAC(A) and Arty Spot missions for 2/1 produced one secondary explosion, destroyed eight structures and damaged four.

HMM-263's Medevac aircraft was forced to land having received hits in the DaNang TAOR. Two crewmembers received minor wounds from shrapnel.

SECRET

25 September - An HMM-263 aircraft on a routine administrative flight was hit with two rounds at Duc Pho, injuring the co-pilot, who was subsequently evacuated to CONUS.

MAG-16 suffered the tragic loss of an aircraft and crew of five when HMM-161's medevac aircraft was struck by a friendly artillery round eleven miles west of Dong Ha.

26 September - Normal operations. A VMO-2 Huey returning to Dong Ha for fuel, spotted a VC/NVA suspect a half-mile from the airstrip. A recon team was dispatched to the area, and when a red smoke marker was dropped on the enemy suspect he threw up his hands in surrender.

27 September - HMM-263's medevac pilot was injured slightly by shrapnel. Flying escort for HMM-161, VMO-2 gunships were credited with a confirmed VC KBA near Phu Bai.

The H&MS-16 C-117 conducted a flare drop mission.

28 September - Routine operations.

29 September - Major E. C. HERTBERG, leading a section of HMM-164 CH-46's accomplished an emergency extraction of a five man recon team without incident in spite of extremely poor weather in mountainous terrain.

HMM-263 aircraft took hits from ground fire on three separate occasions. One incident resulted in injury to the pilot of the medevac aircraft. VMO-2 gunships were escorting HMM-263 on the third incident, an emergency recon team extraction, and delivered suppressive fire which silenced any further enemy activity.

30 September - Normal operations.

3. General

In addition to normal III MAF support in the Phu Bai and DaNang areas, September found MAG-16 heavily committed to the support of Operation Prairie at Dong Ha, where Marine elements composed largely of 4th Marine Regiment units have been extremely active. The close proximity of these activities to the DMZ has provided some of the most exciting helicopter flying in history, and our counterparts on the ground have relied heavily on the "can do" spirit of MAG-16 pilots to give them unprecedented support.

Statistics alone cannot express the spirit and attitude of our pilots and crews working in difficult operating areas and under trying conditions. Our medevac, fire suppression, and resupply missions have been carried out with a determination and fervor nothing short of inspirational. Personnel shortages have weighted the burden of heavy commitments on pilots, mechanics, and ground support crews, and yet there appears to be no end to the aggressiveness with which they tackle their tasks.

5. Civic Action

a. Medical. Thirteen scheduled sick calls were held in the Son Thuy and My Thi Hamlets. Two thousand nine hundred and three people were treated. Two Vietnamese civilians are being trained as rural health workers. The Naval Hospital had fifty major surgery cases and two hundred and twenty-one out-patients. The MAG-16 medical department visited the Civic Action Supply Center, and drew all their necessary medical stores. MCB 11 has built a small aid station in the hamlet of My Thi. It is staffed by a corpsman from MCB 11. 5th Comm donated a spray tank and insecticide to the C.A.C. unit in Da Man. The C.A.C. unit is presently using it to spray the hamlet. Medical posters have been placed throughout the hamlet. The village chief desires to use one of the rooms in our sickcall buildings in Son Thuy as a delivery room. The village health worker will staff the building.

~~SECRET~~

~~SECRET~~

b. Education. The roof of the school in Son Thuy has been completed, but 3/1 has requested that the building be moved, because it is too close to the new wire they have laid. School kits have been requested for the new school. The request for materials for the Buddhist school was approved by the Province Education Chief. MCB 6 conducted nine three hour English classes in Son Thuy 1. The classes were attended by four students.

c. Projects. MAG-16 provided cement (20 bags), tin (97 sheets), and lumber (400 feet of 2x4) to the village chief for the rebuilding of the sick call building in Son Thuy. The work was done by Vietnamese being paid with village funds. All individuals in the village were taxed a nominal fee by the village chief. The dike in My Thi was reinforced and widened by MCB 11. Materials were requested for the Boys' Town Project. The Mayor of DaNang turned down our request for steel. The Province Education Chief visited the only public school in Hoa Long Village. He informed us that the Province plans on repairing the school and putting in a cement floor. MCB 11 has poured a cement floor for a new three room school in My Thi. Materials were donated and the people have made all the blocks necessary to rebuild the school. The people were also given materials with which to build wells which are now operating. 5th Comm has donated cement for the building of wells in Da Man. Trash boxes have been built out of scrap lumber. Arrangements are being made for a trash detail to be organized in the hamlet. At the present time the C.A.C. unit is picking up the trash.

d. Population Control. The village chief asked the Buddhist priest who is moving the refugees into the village if he could guarantee that the refugees were not V.C. The Buddhist priest could not guarantee this. For this reason the refugees were told to move from between the mountains to another area where they can easily be controlled. The majority of the refugees left the village.

e. Government. Mr Suu, the village chief of Hoa Long Village, submitted his resignation to district headquarters. It was accepted, effective on 30 September. Mr Hoa is presently the acting village chief. District headquarters will appoint a new village chief in a short time. The village had an excellent turn out for the national elections, even though the V.C. made an unsuccessful attempt to destroy the balloting office.

f. Give Away Program. MAG-16 held a party for the orphans at the Catholic orphanage. Included in the gifts given were: soda, koolaid, cookies, ice cream, balloons, toys, and clothing. MCB 11 distributed over one thousand bars of soap to the people in My Thi. School supplies were given to the people in My Thi and Son Thuy 1. The MAG-16 Chaplain donated one hundred and seventy-five dollars to various Catholic Charities in the area.

g. MAG-16 Chaplains' Civic Action Programs:

(1) Roman Catholic. The following items were delivered to support the continuing work on the school for boys:

~~SECRET~~~~SECRET~~

100 bags of cement
2 loads of scrap lumber

Contributions donated to the school this month total 57,00 Piasters.

(2) Protestant. Attended dedication services for An Hai School of East DaNang, and delivered a sewing machine to the Christian Missionary Alliance. Four meetings of the Vietnamese Educature Scholarship Board were held of which MAG-16 Chaplains attended too. About 60 applications for scholarships have been received and investigated. Twenty-three students in the DaNang area have been selected for scholarship aid.

6. Moral/Welfare Programs

a. Roman Catholic:

Sunday Mass	0800	MAG-16
	0930	5th Comm
	1030	III MAF
	1700	MAG-16
Weekday Mass	1830	MAG-16
		LA/MS "B", Tuesdays

b. Protestant:

Sunday	0930	Regular Worship Service
	1830	Communion Service
	1330	Church Parties LDS, Jewish
	1900	Bible Study
Saturday	1900	Choir Practice
Phu Bai	0900	Regular Worship Service
Sunday	1800	Bible Study
		Other services at FLC, "A" Med, Division, and Dong Ha as scheduled.

c. Church Parties: East DaNang Church Party Bus picks up and returns people for the following services:

Latter Day Saints
Jewish
Orthodox
Episcopal & Lutheran Communion

d. General

(1) Attendance is beginning to increase.

(2) Chapel construction progresses rapidly, and services should begin there next month. RAdm James W. KELLY, Navy Chief of Chaplains, has accepted the invitation of the CO, MAG-16, to dedicate the new Chapel on Christmas Day, 1966.

~~SECRET~~

e. Chaplain J. GRAHAM has replaced Chaplain R. FULLILOVE at Phu Bai.

7. Intelligence/Counter-Intelligence

a. To assist squadron intelligence activities, a memorandum, "Debriefing of Aircrrews", was published.

b. Group Order 3870.1, "Security and Counter-Intelligence Training", was published on 9 September 1966. Its purpose is to standardize counter-intelligence training given to all personnel, to establish a regular training schedule, and to present a comprehensive list of subjects and directives to be covered in training.

c. Regular liaison was maintained, and liaison was established with C1 Detachment, Fifth U.S. Special Forces; Naval Advisory Detachment, Camp Tien Shaw; and, Naval Advisory Group, Monkey Mountain.

d. The S-2 Officer participated in planning a heliborne assault by the 51st Independent ARVN Regiment on 5 September 1966.

e. A forward S-2 operation was maintained throughout the month by 1stLt HILL at Dong Ha. Briefing and debriefing, and liaison with the Fourth Marines and Tally Ho Operations were maintained.

~~SECRET~~9. Air Control

a. Approach Control has been operational at Hue Phu Bai twenty-four hours a day, and GCA has made a total of 300 approaches.

b. Tower Operations conducted for September were as follows:

Marble Mountain Air Facility	14,860
Hue Phu Bai	12,455
Dong Ha	15,717

c. During September, MATCUL-68 augmented by MABS-16 personnel, continued to maintain the compound at Hue Phu Bai.

10. Ground Defense

No probes were experienced during the month. However, small arms fire was received periodically which could not be attributed to friendly action and therefore is assumed to have been sniper fire. No pattern of fire was noted. Illumination of the perimeter in the event of attack has become an increasing problem due to the lack of such items as hand flares and trip flares at the ASP. Due to the anticipated delay in receiving supporting arms illumination, it is anticipated that all hand illumination flares would be expended in one attack. Continuous modification of the perimeter has been accomplished in order to permit the completion of construction projects by the RMK construction firm, which includes a 10 foot high chain link fence around the base perimeter.

11. Motor Transport

The MABS-16 motor transport section provided the following services during the month of September 1966: Transportation of potable and raw water; road grading throughout MMAF and transportation for command and individual road movement, for a combined total of 30,004 miles. At the close of the month, 11 prime movers out of a total of 65 were on deadline.

12. TAFDS

The MABS-16 TAFDS Section continued to fulfill MAG-16's fuel needs during the month of September. The quantity of fuel dispensed at Marble Mountain Air Facility, Phu Bai and Dong Ha during September was as follows:

<u>LOCATION</u>	<u>AVGAS 115/145</u>	<u>JP-4</u>
MMAF	235,429	216,622
Phu Bai	113,952	200,670
Dong Ha	<u>198,251</u>	<u>149,691</u>
TOTAL GALLONS	547,632	566,983

TAFDS support was provided for Operations Prairie and Deckhouse IV.

~~SECRET~~~~SECRET~~

~~SECRET~~**13. Crash Crew**

On 13 September 1966, a CH-46A assigned to HMM-265, crashed and burned in the surf approximately 100 yards north of the MMIF perimeter. Despite heavy surf conditions, the fire was extinguished by members of the Crash Crew using four 30 pound "PKP" fire bottles. A crash truck was not used due to perimeter defenses which blocked entry into the beach. There were no personnel injuries. In addition to support of MMIF, continued support was provided for the Phu Bai and Dong Ha facilities.

14. Base Development/Utilities**a. Construction**

(1) Construction was started on the MMIF Chapel during the month and has progressed to include supporting beams, rafters and internal structures not affected by weather.

(2) MMIF construction for September: Moved and relocated 5 pram tents during period 1-3 September; re-roofed the MMIF Amphi-theater screen; construction of two 1-hole heads; construction completed on battery shop for motor transport section; constructed approximately 75 doors for quarters and officers facilities; constructed and installed 2 generator shacks; constructed entranceways for CP bunker; raster construction for conversion from strongback tents to tin roofed huts as required; shutter construction and repair for quarters and office facilities as required; normal repair and upkeep for all facilities and buildings was accomplished as required.

(3) Phu Bai Construction: 8'X10' concrete slab laid and superstructure completed for pump house; 20'X20' concrete slab laid and superstructure completed for messhall additions; 16'X4' addition completed on motor transport building; constructed 24'X6' head; converted 12 strongback tents to tin roofs.

(4) Dong Ha Construction: Constructed 12 strongback tents; constructed 5 pallets for air drops; construction on a continuing basis for strongback tents and repair of existing buildings and facilities; constructed strongback tent to be used as C.P.

b. Sign Shop. The sign shop made and painted 42 signs of various sizes for use in the MMIF cantonment.

c. Refrigeration Shop. During September the refrigeration section made minor repairs, performed preventative maintenance and serviced refrigeration units within the Group. The ice house produced 27,550 pounds of ice during the month.

d. Electric Shop. The following work repairs and installation of services were completed during September: Buried 2000' of # 6 wire for C-1C Detachment; wiring of C-1C Detachment Offices completed; normal maintenance and repair during month.

~~SECRET~~

~~SECRET~~

e. Plumbing Shop. The following work and repairs were completed by the plumbing shop during the month of September: Installed showers for HMM-265 flight line; assembled water heater for messhall; bath unit put into operation to heat all shower points; numerous other repair and maintenance and repair jobs throughout the month as required.

f. Water Point. The water point produced 770,579 gallons of potable water during the month.

g. Laundry Section. The laundry processed 30,050 pounds of clothing during the month.

h. Generator Section. The generator section maintained 440 KW daily with no electric down time or power loss in the billeting areas.

i. Exchange Service. The services of James S. LEE and sons, Ltd, tailors of Hong Kong, BCC, were added to the exchange facilities on 15 September 1966 with sales of \$1214.75 through 30 September. Exchange sales exclusive of tailor shop were \$31,740.00 for the month.

15. Logistics

a. The C&R modification field team 2.2 for CH-46 AFC installation has completed all but five aircraft and the team has been disbanded. AFC kits are on order for the remaining five aircraft and will be installed by local personnel.

b. RMK has leveled and compacted the hanger area along the east mat and is now pouring the concrete footings for the steel structure.

c. Approximately 40% of the security fence has been completed.

d. Air freight processed by this section during the period is as follows:

(1) Organic Aircraft by Designation:

Dong Ha	80,901
Pru Bai	80,103
MMAF	14,100
TOTAL	175,104

(2) Fixed Wing

Cubi Pt	10,615
Dong Ha	11,850
DaNang	7,620
TOTAL	30,085

~~SECRET~~~~SECRET~~

(3) Surface

Phu Bai	32,960
DaNang	<u>51,170</u>
TOTAL	84,130

TOTAL for all: 289,319

This is an increase of 66,727 above the last reporting period.

16. Communications

a. Operations PRAIRIE and DECKHOUSE IV were conducted in the Quang Tri Province, and were supported by MAG-16 communications personnel at Dong Ha. Two switchboards, a covered teletype circuit, an FM net, and a Single Side Band net are operated by these people with augmentation from H&HS-1. This support is in the process of being expanded. First MAW is assigning all of the H&HS-1 communicators at Dong Ha TAD to MAG-16; therefore, the Group will soon be responsible for all Wing Communications there.

b. In an effort to improve the telephone channel from MMAF to Dong Ha it was reterminated over an AN/MRC-62 radio relay shot. This has resulted in much better reliability; however, the common user circuits from MMAF to Wing have deteriorated slightly as one of the four channels was switched to an AN/TRC-27 to make room for the Dong Ha retermination.

c. The Wire section has been experiencing a great many problems with the MMAF telephone system. The present system of "slash" wire is urgently in need of replacement by telephone cable. The Wing CEO has taken steps to procure this cable and associated hardware on open purchase. The Wire section installed three common user lines and one hot line for the O-1C Detachment.

d. Message traffic was considerably less than it has been since April, showing a marked improvement in proper usage of the Naval Message system by all drafters. Total traffic came to slightly less than 3,900; with approximately 900 outgoing and 3,000 incoming messages.

e. The following transactions were effected by the Repair Section:

- (1) 183 pieces of equipment processed
- (2) 9 pieces of equipment evacuated to higher echelon of maintenance
- (3) 9 pieces of equipment returned from higher echelon of maintenance
- (4) 189 pieces of equipment returned to sections
- (5) 189 requisitions processed by supply

f. In conclusion, the critical personnel situation shows signs of clearing up. However, MAG-16 requirements are growing faster than people are arriving.

MAG-16 SITREP - PERIOD COVERED 012100H TO 022100H SEPT 1966

MAG-16 FLEW A TOTAL OF 251.9 FLIGHT HOURS, CARRYING 1807 PAX; 52.7 TONS OF CARGO AND 92 MED EVACS. THIS WAS ACCOMPLISHED IN 810 SORTIES.

MAG-16 (HIGHLIGHTS)

AT 1910 LAUNCHED SPARROW HAWK (2 CH-46A OF HM-164) ON A EOD DEMOLITION MISSION - WENT DIRECTLY TO ASP-1 (AMMO SUPPLY POINT) AND PICKED UP 3 EOD PERSONNEL. CONTINUED TO LANDING ZONE CRAWDAD AND PICKED UP 24 MARINES TO ACT AS A REACTIONARY TEAM. MADE CONTACT WITH GROUND TROOPS AND WAS BRIEFED THAT THERE WAS UNEXPLODED ORDNANCE AT (AT 991588) AND (AT 983590) AND THAT WE WERE TO FIRST DROP OFF THE MARINES AT (AT 991588). THE TEAM WAS TO GET OUT - WE WERE TO LIFT AND ORBIT - WHEN THE ORDNANCE WAS BLOWN UP WE WERE TO RETURN, PICK-UP THE MARINES AND CONTINUE TO THE SECOND ZONE. CONTACT WAS MADE WITH THE VMO-2 GUNSHIPS. WE WERE BRIEFED BY GROUND TROOPS THAT THE ZONE WAS NOT EARLIER IN THE DAY BUT NOW SEEMED TO BE SECURE - BUT THAT THERE WERE NO FRIENDLY IN THE AREA AND WE WERE CLEARED TO FIRE AT WILL IF NECESSARY. BOTH THE VMO-2 AIRCRAFT AND SPARROW HAWK AIRCRAFT CONCURED ON THE COORDINATES AND AN APPROACH WAS COMMENCED. ON FINAL JUST BEFORE LANDING - AUTOMATIC AND SMALL ARMS FIRE WAS RECEIVED FROM THREE VILLAGES IN THE IMMEDIATE AREA, A WAVE OFF WAS EXECUTED AND WE WERE TOLD TO ORBIT TO THE EAST WHILE ARTILLERY PREPARED THE AREA. AS AIRBORNE SPOTTER VMO-2 CONTROLLED ARTILLERY FIRE FOR APPROXIMATELY 45 MINUTES ON THE AREA IN QUESTION. DURING THIS TIME JOYRIDE (TADC) CAME UP ON THE AIR AND ASKED THE GROUND TROOPS WHAT THE PRIORITY OF THIS MISSION WAS BECAUSE THEY APPARENTLY WANTED TO USE THE HELICOPTERS ON ANOTHER MISSION. THE ANSWER WAS AN EMERGENCY MISSION. THE SPARROW HAWK AIRCRAFT ASKED THE GROUND TROOPS IF THEY WANTED TO CONTINUE THE MISSION AND THE

~~CONFIDENTIAL~~
CONFIDENTIAL

CONFIDENTIAL

CONFIDENTIAL

ANSWER WAS YES. THE REASON GIVEN WAS THAT THE ORDNANCE LEFT IN THE FIELD HAD TO BE DESTROYED OR ELSE IT MIGHT BE USED BY THE VIET CONG AGAINST THE FRIENDLY FORCES. TWO FIXED WING AIRCRAFT ARRIVED ON THE SCENE AND THEY WERE BRIEFED BY VMO-2 THAT OUR MISSION WAS TO BE CONTINUED AND THAT IN CASE OF TROUBLE THEY WOULD BE CALLED IN. IT WAS DECIDED THAT INSTEAD OF LANDING AT THE EXACT SAME POINT WE WOULD MOVE TO THE OTHER SIDE OF THE RAILROAD TRACKS AT THE LANDING ZONE, THESE COORDINATES BEING (AT 994592). ON THE FINAL APPROACH HEAVY AUTOMATIC WEAPONS FIRE WAS RECEIVED INCLUDING IN IT WAS ESTIMATED A 57 MM RECOILLESS RIFLE. A WAVE OFF WAS EXECUTED AT APPROXIMATE TOUCH DOWN. THE WINGMAN AIRCRAFT WAS HIT ON HIS FINAL APPROACH BY PROBABLY THE 57 MM RECOILLESS RIFLE. HE CRASHED AND IMMEDIATELY COMMENCED BURNING. THE LEAD AIRCRAFT IMMEDIATELY RETURNED TO THE ZONE WHICH WAS STILL UNDER HEAVY FIRE. THE TROOPS ONBOARD WERE DISCHARGED AND THE SURVIVORS OF THE CRASHED AIRCRAFT WERE THEN LOADED. THESE MARINES WERE EVACUATED TO "C" MED. THE LEAD AIRCRAFT IMMEDIATELY RETURNED TO THE ZONE WHICH CONTAINED THE DOWNED AIRCRAFT. IT WAS TOTALLY DARK BY THIS TIME AND ENTERED THE ZONE AGAIN TO EXTRACT THE REMAINING MARINES. THE AIRCRAFT WAS STILL AFIRE BUT A SATCHEL CHARGE WAS LEFT IN THE AIRCRAFT, THE AIRCRAFT EXPLODED AND A DEPARTURE WAS MADE UNDER STILL HEAVY FIRE. ALL OF THE REMAINING MARINES WERE RETURNED TO "C" MED. THERE WERE NO MARINES LEFT IN THE ZONE. APPROXIMATELY EIGHT WOUNDED WERE BROUGHT OUT ON THE FIRST TRIP OF 12 PERSONNEL - 6 WOUNDED OF 16 THE SECOND TIME.

LATE ENTRY 1 SEPT 1966

1950H, MSN# 9-123; ONE OH-46A FLEW A NIGHT ILLUMINATION FLIGHT. RECEIVED SMALL ARMS FIRE AT (BT 030700). THERE WERE NO HITS.
