1. During the month of December, MAG-16 aircraft flew a total of 10,037.2 hours and 28,018 sorties in support of FWMAF in I Corps Tactical Zone. Over 57.7% of this effort, 5,787.6 hours and 18,298 sorties, was flown in direct support of the First Marine Division.
2. Marine Aircraft Group 16 supported the following operations during December: VICTORY DRAGON XVIII.
3. Contact with the VC/NVA during the month of December was one (1) mortar attack on 7 December 1969. Light damage was incurred.
4. On 7 December, HML-367 moved from Hue/Phu Bai to Marble Mountain Air Facility.
5. On 17 December 1969, there was a realignment of three tactical squadrons in MAG-16. HML-167 became the largest HML in the Marine Corps on accepting HML-367's UH-1E's. HML-367 transferred all UH-1E's to HML-167 and became an all Cobra squadron on accepting VMO-2's AH-1G's. VMO-2 transferred all of it's AH-1G's and operates OV-10A's only. Large inter-group transfers were effected on realignment of these squadrons.
6. During the month of December there were five changes of command effected in MAG-16. Lieutenant Colonel B. H. MANN assumed command of HMM-161, Lieutenant Colonel C. A. BLOCK assumed command of HMM-361, Major P. C. SCAGLIONE assumed command of MABS-16, Major M. T. HORNSBY assumed command of H&MS-16 and Lieutenant Colonel R. A. BANCROFT assumed command of HMM-262.
7. On 25 December MAG-16 aircraft supported Operation HOLLY, the Bob Hope Christmas show.

b. Six blackboards were constructed by MABS-16 Utilities and delivered to Loa Long Elementary School in Nui Kim Son. Additionally, twenty (20) sheets of tin, 10 bags of cement and 30 2"X6" were delivered for the construction of a breeze-way and milk kitchen.

c. The MAG-16 demonstration pig farm has achieved some noticeable success because the villagers have finally accepted our project. The natives have demonstrated their interest in the project by constructing their own pig pen adjacent to ours and by purchasing their own sow. The six month old sow cost approximately Fl6000 (\$150.00) and they requested that our boars service her when the time comes. The agreed price will be one piglet from the first litter and we can expect the mating to commence sometime in February. MAG-16's pig farm now boasts of two boars and five sows.

d. Binh Ky - Pacification of Binh Ky has been progressing slowly and there were no concrete results by which to gauge our success in winning over the people to the GVN side. The people are noticeably friendlier and healthier because of our weekly MEDCAP's and one hundred and fifty of their children are receiving an education. In conjunction with the CAP teams and Revolutionary Development personnel, we have uncovered a total of fifteen VC living within the confines of the village or in the immediate vicinity. Our future project for this village is to provide enough materials for them to build a suitable village office/meeting house.

e. A total of \$658.35, 2,025 lbs. of food, clothing and toys, 450 gifts to orphans at Christmas and a party at the Officer's Club were all supervised by the MAG-16 Chaplains.

6. Intelligence/Counterintelligence. (MAG-16 S-2 Command Chronology)

a. There were 126 fire incidents during the month of December resulting in 42 aircraft hits.

b. No reports of intelligence value were received from indigenous sources, no change from the previous month.

COMMUNICATIONS:

RADIO SECTION: Continues to operate necessary nets to support the group. On December 9, 1969 the Radio Section started monitoring the Nestor circuit which is a covered circuit used for equipment check with helicopters.

MAINTENANCE: This section is authorized by Wing Order P4700.1A to provide Comm-Elec. Maintenance Support of organic equipment as indicated below:

AVIATION-GROUND COMMON	THIRD
TEST EQUIPMENT	THIRD
SINGLE SIDE BAND	SECOND
CRASH/FIRE TRUCK	FOURTH

In addition, the section is tasked with the responsibility of maintenance support of the TOM-10 and TOM-20 Alert and Command Intercomm System. Further, we provide either direct maintenance support or a maintenance channel for radio and telephone equipment located at Phu Bai, An Hoa and LZ Baldy.

The personnel situation, at present, is considered to be adequate with one exception. This exception is the shortage of Telephone Teletype Repairmen (MOS 2811). Currently there is ~~two men~~ one man with this MOS assigned to MAG-16. The fact is that a large portion of the sections repair work involves telephone and teletype equipment. Cross training of personnel with other MOS's is presently under way but is felt that an increase of personnel already trained in this field would serve to enhance the service the section is able to provide.

The responsibility for Comm-Elect Maintenance of the AN/VRC-77 and AN/FRC-52B which are Crash Crew radios has been placed with the MABS Communications Section. Since this action was taken in early 1969 there has only been one quota allotted this section to send personnel to school on these radios. The people originally sent to school on this equipment have rotated. A further problem with this equipment is the acquisition of repair parts. When the equipment was first obtained only factory parts lists were available for repair parts. The actual problem is that a good portion of these factory part numbers cannot be located in the Navy or Marine Corps Cross Reference Lists. This has resulted in little or no repair parts reaching the maintenance sight.

1. 155 pieces turned in for repair
2. 141 pieces of gear repaired
3. 7 pieces of gear evacuated
4. 6 pieces returned from higher echelon
5. 71 requisitions were processed

MESSAGE CENTER SECTION: The Message Center processed a total of 5,216 on line messages and 0 off line messages for the month of December 1969. 43 hours and 45 minutes of down time was experienced during the past month due to minor equipment, power and preventive maintenance. Sgt Lund, R., the Teletype Tech Chief attended the KW-7 school at Tahn Son Nhut. Cpl Steinhorst, D. and LCpl Clarkson joined the Communications Center.

WIRE SECTION: Continues to maintain the field wire system. With an increase in units attached to MAG-16, a shortage of telephones and switching equipment is being experienced by this section.

COMMUNICATIONS SECTION: MAG-16 Detachment continues to provide communications for MAG-16 units located at Phu Bai. 2ndLt B. Little joined this section
