PART II Narrative Summary

MATCU-66 was not operational from 9 Oct 68 to 31 Oct 68. This unit deployed from MCAF Futema to RVN during September 1968 leaving behind a small contingent for limited operations at Futema. MATCU-74 was slated to replace MATCU-66, however, a change in plans brought about by the requirement to limit the number of MATCU units in WestPac to five caused the cancellation of MATCU-74's deployment and the return of MATCU-66's flag from RVN. The unit's expeditionary equipment has not been calibrated and the controllers are not qualified on it as they have been utilizing the permanent facility equipment at MCAF Futema for training.
