7. SIGNIFICANT EVENTS:

a. Total operations for the month of August at Chu Lai Air Base were 34,579. This is a drop in nearly 6,000 operations compared with the previous month's totals. This drop has been brought about by the fact that MATCU-67 has established a new policy for counting helicopter operations. The new policy conforms with the new helicopter course rules outlined in the Air Operations Manual (Air Base Order P3710.7C).

b. MATCU-67 averaged 1,241 operations per day during the month of August 1968 at Chu Lai Air Base and An Hoa Airfield.

c. Since arriving in the Republic of Vietnam, MATCU-67 has controlled 907,364 take-offs and landings.
