On picking up medevacs for Southern Kive we made our first approach into their upper zone + loaded their medevacs aboard. We took small arms fire coming out of the zone. Their Lower Zone had PKA and 4 priorities. On our first approach we ~~did~~ took small arms fire + waved off. Our 2nd approach was made from the opposite direction where we were undefilated. And there was no prepared zone we hovered and began hoisting them aboard. ~~The~~ After the first three were brought aboard we received intense small arms and mortars in the zone. We pulled out but ~~got~~ collected 6 rounds through the A/C including one thru a fuel line which caused fuel to spray about the inside of the A/C.

We made an emergency landing at I Z Cunningham + repairs were made.

YR 41 was scheduled for emergency re-supply of small  
 arms ammo to Lawbreaker Hotel grid 1302. Contact was made  
 with Lawbreaker Hotel and Colorado Charlie who was  
 controlling arty in the area. After a zone brief from Hotel '14'  
 a modified spiral was made to the zone and the external  
 delivered. We moved slightly to the right and set down to  
 pick up the emergency medevacs. As the third one was put  
 aboard we started taking small arms fire and were told  
 to lift out immediately. Colorado Charlie ran an arty mission  
 on the area and flew gun support for us as we went back  
 in to pick up the rest of the medevacs. Once they were  
 aboard we lifted. There were nine holes in the air when  
 we landed at Quang Tri.
