27 MAR'69

We left on a routine resupply at 1445 with 92-9, YR-33 as wingman. We picked up external and wingman picked up replacement troops at Vandy LSA. On way to drop zone as shown on front wingman developed trouble with PMS so we returned to get wingman another plane. He got YR-37 and we proceeded with mission. After first drop at 987203 wingman returned to QT with a/c trouble. On way from QT the second time we recieved fire from just north of rockpile app. 9956.

When wingman had returned to QT we set down at UCB, LSA to wait for someone to join up with. After several minutes wait, we were joined by chatterbox-5. With Chatterbox as wingman we took an external to 904237. Wingman picked up med. about 100 meters NE of our zone. We then returned to UCB.

From UCB DASC sent us on emergency resupply and emergency medic. We with wingman Chatter box-5 went to join up with Scarface 38462 at the rock pile. Our plane went into zone and dropped external. While on our way in we found out they had a medic so we picked him up also. Our wingman then went into 048587 to pull out emergency medivacs. At this time we were orbiting nearby, with HU-1 gunships as cover he went in and had to hoist out all eight of his meds. He could not land due to trees and general terrain. While we were in and wingman was in we were receiving small arms and S.O. cal. The Gunships were supressing them quite well. When wingman departed we found out there were two more in his zone so we went in and hoisted them out. Our wingman went back to QT with emergencies and we went to UCB to refuel and leave our meds.

From fuelpits we learned of one emergency medic at Arbonne that needed to be picked up ASAP. We went to get him with Scarface 46412. Before we got there it was dark and fixed wing were preping around zone. With the aid of the gunships we went in and picked up the med. He was very bad off so we took him directly to the ship. We flew out to Arbonne with no wingman for lack of time to call anyone from QT. We flew to ship alone. We dropped him at ship and brought 3 paxs back to QT.

At 1900 Vandy Oase suggested 92-10 pick up 2P4 2R medivacs at 043644. During Star 83's position and said they were taking incoming at the time, and no gunships were available to assist the medivacs. The Oase linked 92-10 up with gunships at 1930. The ceiling in the area was 1500 ft with visibility at 1 mi, but it was dark. Scarface 7 and his wingman succeeded in finding the zone and getting a zone brief and information concerning the position of the masters. An OV-10 (Smitty Lima, Lockheed) had kept the zone in sight from sunset until darkness and helped guide the Scarface birds over the zone. 92-10 approached the zone following Scarface 7 to the zone and commencing the approach to a stroke light. While in the zone Scarface 7 and his wingman as well as the OV-10 fired rockets and guns at a ridge to the north of the zone. While 92-10 was in the zone, the position took no incoming masters. The medivacs were taken to 3rd Med D. Clayton.
