 Departed DANANG 0800 for Sibby QUANG NGAI. Approaching QUANG NGAI observed two (2) H-21's depart to west. Landed and received mission to carry Army doctor and team to BAGIA, 7 N.M. West. Returned Quang Ngai at 0945 - 15 min. Trip to BAGIA suggested to Sgt LESCH at CATBIRD-3 that H-21's could have completed mission. He agreed. Saw LTCol Moore U.S.A, Catbird G-3. We discussed the problem of coordination. He stated TOC does not inform him whether or not he will receive requested A/C, therefore he is unable to prepare for full utilization of A/C if and when they arrive. Suggest his requirements be pinpointed daily, and he be informed as to whether or not he will receive A/C the day he submits request. No other missions from Catbird today, so flew to MANGBUK and retrieved squadron equipment. Flew one sortie with EA 3-12244A to TAMA, on the

 there at 10 K1 could not go on. I was not
 looking for it. It was building up in valley.
 So I wanted to go. It was not there. I was
 able to go to base. I was not there. I was
 to go. It is my opinion that unit to receive

Flight originally scheduled for 0700 delayed to 1300
 because of W. On arrival at Hue at 1330 there

was no sight of 1000* of cargo for Achan,

there were 15 troops for Achan. On arrival at

Achan a Chinaman was being arrested and it was

like a three ring circus trying to get the 4320*

cargo we were to carry to VC 563 829 after 1500

delay and much jumping and shouting by the little brown

folk we finally got started and completed the lift. The W/H

and R/H at Achan were taken out by the little folk before we

left at Achan. Arriving at Hue to signal at 1600 the 1000*

of cargo was there then. The H was told to get in request

 pursue. I was in flight until 15:00 and waited
 while 7th came get another H/C. Arrived at 15:06
 then we were given a Tank around and we had heard
 the plane to be contacted. We were AB11 OK- one
 of which was guided by USMC. After we were in 11 hours
 since 0830. At 0915 two AB11 114-3112 arrived. They were
 on standby to contact 41 Mars. They were at 15:00
 and we were to fly to contact 41 Mars. After we were
 on standby for 1 hour, I have the flight take off at 11:00
 and with 1st of 11 hours. I really suggest that the type
 of standby be given, and that they gather have given
 us a lead to go up a record of looking for them & they
