A priority mission without coordination between Div + regt and air. Seat 14 did not know of mission and stated it was scheduled for next AM. Scout team was not up on freq, not in the zone and not prepared for lift.

Ridgeback for that zone although improved is a terribly poor selection requiring reduced loads on extract 400-500 pounds maximum. Better zones are nearby.

Excessive VIP flights are tieing up this squadrons assets.

Sand Shark 'C' attempted to give med evac a C+C mission, dashed face frag and was given #22-30. I was given one additional med evac (2 people total). When I was on my second approach the C+C mission (to take Lasebreaker 6 to Scat LZ) was cancelled.

Recommend: The med evac be used as a med evac and if needed additional aircraft be launched for C+C. Lasebreaker's position was such that a 10-15 minute jeep ride would have taken him down highway #1 To Scat 14's position

THIS WAS A SIMULTANEOUS LANDING IN TWO ZONES WITH NEITHER FIXED WING OR ARTY PREP. WHILE THESE ZONES WERE ASSUMED TO BE SECURE AND IN FACT NO FIRE WAS TAKEN, IT SHOULD BE NOTED THAT THESE PROCEDURES ARE NOT STANDARD FOR A STRIKE. IT IS MOST DESIREABLE OF ANYTHING BUT AN ADMIN LIFT TO HAVE PREPARATION FIRE AND NOT HAVE SIMULTANEOUS LANDINGS.
