While working C&C for 3rd Marines 6-1 turned down a VR in the 3rd Marine operating area, because of marginal weather. August Night "6" insisted that we run the VR. Later in the day when VR was done, and the weather was still marginal 6-1 received a round in the right sub cell. This damage was received because of the necessity of flying low to do the VR. 690409-8 *
