#### PART II

### NARRATIVE SUMMARY

HMM-165 opened the month of January aboard the USS New Orleans (IPH-11) at pierside in Subic Bay, R.P. Flight operations for the next six days included local training, instrument and test flights. The squadron also supported BIT 3/4 during field operations conducted by the battalion and provided troop transport for liberty groups to Camp Hayes in Baguio, R.P.

The squadron recovered ten aircraft aboard the USS New Orleans on the seventh, departed Subic Bay, R.P. and sailed for the Gulf of Tonkin.

The squadron arrived in the Gulf of Tonkin on the nineth and resumed the daily Da Nang MARLOG and morning and afternoon MARLOGS between the ships of ARC "A". The squadron also provided two CH-46's for a VIP flight for Colonel T.J. STEVENS, CO 31st MAU and party to Huong Dien.

The squadron provided two CH-46's on the tenth to transport 54 South Vietnamese Marine Corps troops from Huong Dien to the USS Monticello (IPD-35). The squadron also provided one CH-46 to transport Colonel T.J. STEVENS from the USS New Orleans to the USS Monticello and back to the USS New Orleans.

On the eleventh, the squadron provided three CH-46's and one UH-1E on a VIP flight to Da Nang with Rear Admiral W.D. TOOIE, CTF 76.4, Colonel T.J. STEVENS and party aboard. The squadron also launched two CH-46's on a liaison flight to Huong Dien and Hue FRAC with members of the 31st MAU aboard.

On the twelfth, the squadron provided two CH-46's to transport UDT personnel from the USS Paul Revere (IPA-248) to China Beach and returned after completing the mission with one MEDEVAC from the 95th MED. Flight operations were cancelled in the afternoon due to inclement weather with the exception of the afternoon MARIOG between ships of ARG "A".

On the fifteenth, the squadron launched two CH-46's to transport 54 South Vietnamese Marine Corps troops from the USS Monticello to Huong Dien. The squadron provided three CH-46's and one CH-53 for BHT 3/4's practice embark/disembark familiarization exercise. The squadron also conducted night instrument and carrier qualification flights which continued for the next three nights.

On the sixteenth, the squadron provided VIP support for Brigadier General R.W. TAYLOR, Assistant Wing Commander, 1st MAW on his visit to the squadron aboard the USS New Orleans. Briefings were presented to Brigadier General R.W. TAYLOR on contingency plans presently in effect. The squadron also launched two CH-46's on a liaison mission to Da Nang and Huong Dien.

3

### TATE INVESTOR FOR

The squadron conducted pilot ground training on the seventeenth and also provided two CH-46's for a liaison mission to Huong Dien and Hue FRAC with members of the 31st MAU aboard.

On the eighteenth, the squadron launched one UH-1E and one CH-46 on a liaison mission to Huong Dien with Colonel T. J. STEVENS aboard. After recovering the daily Da Nang MARIOG, the USS New Orleans departed the Amphibious Holding Area and sailed for Singapore.

On the nineteenth, a squadron formation was held and an inspection of troops was conducted in preparation for the Singapore visit. The squadron also provided SAR standby and conducted day instrument training and carrier qualification flights which were also continued the following day.

The squadron conducted holiday routine on the twenty-first and participated in the celebration of crossing the Equator.

On the twenty-second, the USS New Orleans arrived in Singapore and conducted holiday routine for the following four days.

On the twenty-sixth, the USS New Orleans departed Singapore and sailed for Subic Bay, R.P. This action was in response to a general recall due to the Viet Nam cease-fire and preparations being made for the upcoming Special Operation (End Sweep).

Enroute to Subic Bay the daily MARIOG between ships of ARG "A" was conducted and the squadron also launched instrument training, carrier qualification and test flights.

The squadron arrived in Subic Bay, R.P. on the twenty-ninth and launched four CH-53's, two CH-46's and, one UH-IE and recovered them at NAS Cubi Point, R.P.

On the thirtieth the squadron provided one UH-IE on a liaison mission to Clark AFB, R.P. with Colonel T. J. Stevens aboard.

On the thirty-first the squadron launched two CH-46's from the USS New Orleans and recovered them at NAS Cubi Point, R.P. The squadron also provided VIP support for Major General M. P. Ryan, CG III MAF and members of the 31st NAU.

The squadron ended the month of January with a total of This flight hours and an average availability of 62.0%

#### PART III

### SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

#### 1. Commitments

1 Jan - HMM-165 conducted holiday routine.

2 Jan - HMM-165 launched four CH-46's to support BIT 3/4 in a field operation. The squadron also flew limited day and night operations and provided one CH-46 for a troop transport to Camp Hayes in Baguio, R.P.

3 Jan - HMM-165 provided troop and supply support for BLT 3/4 while conducting field operations. The squadron also supplied one CH-46 for a troop transport to Camp Hayes, R.P.

,4 Jan - HMM-165 provided one UH-1E for the 31st MAU C.O. and X.O.

The squadron also continued to support BLT 3/4 while conducting a field operation and provided one CH-53 for a troop transport to Camp Hayes, R.P.

5 Jan - HMM-165 provided support for BIT 3/4 and one CH-53 for a troop transport to Camp Hayes, R.P. The squadron also flew limited day and night training flights.

6 Jan - HNM-165 flew limited test flights in preparation for recovering aircraft aboard the USS New Orleans (IPH-11) prior to departing Subic Bay, R.P.

7 Jan - HMM-165, after recovering all aircraft, departed Subic Bay, R. P. aboard the USS New Orleans and sailed for the Gulf of Tonkin. No flight operations were conducted.

8 Jan - HMM-165 flew limited day training and test flights.

9 Jan - HMM-165, aboard the USS New Orleans, arrived in the Gulf of Tonkin. The daily Da Nang MARIOG and the morning and afternoon MARIOGS between the ships of ARG "A" were resumed. The squadron also provided two CH-16's for a VIP flight for Colonel T. J. STEVENS, CO, 31st MAU and party to Huong Dien.

10 Jan - HMM-165 provided two CH-46's to pickup 54 South Vietnamese Marine Corps troops and transported them to the USS Monticello (IPD-35). The squadron also provided one CH-46 to transport Colonel T. J. STEVENS from the USS New Orleans to the USS Monticello and back to the USS New Orleans.

11 Jan - HMM-165 provided three CH-46's and one UH-1E on a VIP flight to Da Nang with Rear Admiral W. D. TOOIE, CTF 76.4, Colonel T. J. STEVENS and party aboard. The squadron also launched two CH-46's on a liaison flight to Huong Dien and Hue FRAC with members of the 31st MAU aboard.

12 Jan - HMM-165 provided two CH-46's to transport UDT personnel from the USS Paul Revere (IPA-248) to China Beach and returned after completing the mission with one MEDEVAC from the 95th MED. Flight operations were cancelled in the afternoon due to inclement weather with the exception of the afternoon MARIOG between ships of ARG "A".

- 13 Jan HMM-165 conducted the daily Da Nang MARIOG and the daily MARIOG between ships of ARG "A". The squadron also flew five test flights.
- 14 Jan HMM-165 conducted holiday routine.
- 15 Jan HMM-165 launched two CH-46's to transport 54 South Vietnamese Marine Corps troops from the USS Monticello (IPD-35) to Huong Dien. The squadron provided three CH-46's and one CH-53 for BIT 3/4 practice embark/disembark familiarization exercise. The squadron also conducted night instrument training and carrier qualification flights.
- 16 Jan HMM-165 provided VIP support for Brigadier General R.W. TAYLOR, Assistant Wing Commander, 1st MAW on his visit to the squadron aboard the USS New Orleans. Briefings were presented to Brigadier General R.W. TAYLOR on contingency plans presently in effect. The squadron launched two CH-46's on a liaison mission to Da Náng and Huong Dien and also conducted night instrument and carrier qualification flights.
- 17 Jan HMM-165 launched two CH-46's on a liaison mission to Huong Dien and Hue FRAC with members of the 31st MAU aboard. The squadron also conducted pilot ground training and day and night carrier qualification flights.
- 18 Jan HMM-165 launched one UH-LE and one CH-L6 on a liaison mission to Huong Dien with Colonel T.J. STEVENS, CO 31st MAU aboard. The squadron also conducted day instrument training and carrier qualification flights. After recovering the daily Da Nang MARIOG, the USS New Orleans departed the Amphibious Holding Area and sailed for Singapore.
- 19 Jan HMM-165 held a squadron formation and an inspection of troops was conducted in preparation for the Singapore visit. The squadron also provided SAR standby and conducted day instrument training and carrier qualification flights.
- 20 Jan HMM-165 conducted the daily MARIOG between ships of ARG "A".

  The squadron also conducted day instrument training and carrier qualification flights.
- 21 Jan HMM-165 conducted holiday routine and participated in the celebration of crossing the Equator.
- 22 Jan HMM-165, aboard the USS New Orleans (IPH-11), arrived in Singapore. HMM-165 then conducted a holiday routine.
- 23-25 Jan HMM-165 conducted holiday routine.
- 26 Jan HMM-165, aboard the USS New Orleans (IPH-11), departed Singapore and sailed for Subic Bay, R.P. This was in response to a general recall due to the Vietnam cease-fire and the preparation being made for the upcoming Special Operation (End Sweep).
  - 27 Jan HMM-165 conducted a morning and afternoon MARIOG between ships of ARG "A". The squadron also launched instrument training and carrier qualification flights.
  - 28 Jan HMM-165 launched the morning MARIOG between ships of ARG "A" and one test flight.
  - 29 Jan HMM-165 arrived in Subic Bay, R.P. The squadron launched four CH-53's, two CH-46's and one UH-1E and recovered them at NAS Cubi Point, R.P.

- 30 Jan HMM-165 launched one UH-IE on a liaison mission to Clark AFB, R.P. with Colonel T.J. STEVENS aboard.
- 31 Jan HMM-165 launched two CH-16's from the USS New Orleans and recovered them at NAS Cubi Point, R.P. The squadron also provided VIP support for Major General M.P. RYAN, CG III MAF and members of the 31st MAU.

Marine Aircraft Group 36
First Marine Aircraft Wing, FMFPac
FPO San Francisco, 96602

SqdnBul 4790 56:VJP:jra 1 Jan 1973

### SQUADRON BULLETIN 4790

From: Commanding Officer To: Distribution List

Subj: Monthly Maintenance Plan for January 1973.

Ref:

- (a) OPNAV INST 4790.2
- (b) WgO P4790.2
- (c) CNAP INST 4790.3
- (d) CNAP Msg 172206Z Oct 72

Encl: (1) Key Personnel Roster

- (2) Daily/Calendar/119 Day Inspection Schedule
- (3) Receipt/Transfer of Aircraft: High Time Components/Engine Conditional/Calendar Inspections
- (4) Technical Directive Compliance: Ground Support Equipment Information: Monthly Flight Commitments
- (5) General Ordnance Information
- (6) Precision Measuring Equipment/Sqecial Tool Calibration
- (7) Work Center VIDS Board Verification Schedule
- (8) Tool Box Inventory
- (9) Flight Equipment Inspection Schedule
- (10) Corrosion Control Treatment/Prevention
- (11) Technical Training Schedule
- (12) Maintenance Schedule of Events
- (13) Watches and Details
- (14) Pilot's Weekly Inspection Schedule
- (15) Maintenance Telephone Directory
- 1. Purpose. To promulgate schedules and information for the planning and guidance of the squadron maintenance efforts for January 1973 in accordance with references (a), (b), (c), and (d).

### 2. General

a. The Maintenance Plan is promulgated monthly and updated as required. This plan supports flying proposed by the Aircraft Maintenance and Operations Officers to accomplish 580.0 flight hours per month.

b. The Maintenance Plan provides scheduled control of the predicted Maintenance workload ..e.; inspections, transfer/receipt of aircraft, incorporation of changes, etc. Through scheduling of the predicted maintenance workload, the capability for accomplishing the unscheduled work will be determined. Additionally, needs for AIMD/IMA material and personnel support plus other related factors affecting quality maintenance procedures can be stimated in advance of actual requirements.

### 3. Action

- a. It is the desire of this unit that all hands familiarize themselves with the forthcoming requirements to insure necessary equipment, spare parts, and manpower are available to expedite maintenance while still maintaining an effective combat readiness status. One-hundred per cent utilization is projected for the month of January 1973.
- b. All work centers will utilize and comply with the information contained in enclosures (1) through (12). Further, work centers will be cognizant of enclosures (13) through (15).
- c. Request: for deviations from the published schedule will be submitted to the Aircraft Maintenance Officer. All additions/deletions/deviations will be scheduled through Maintenance Control.
- d. Maintenance Control is responsible for updating this plan as necessary to coincide with increased operational commitments and any other additional workload not considered in this plan.
- e. Each Friday at 11/30, there will be a meeting of all work center supervisors and OIC's with the AMO in the Squadron Ready Room. The purpose of this meeting will be to pass information, discuss current problem areas, operational and maintenance requirements for the next seven (7) day period, and determine all predictable needs for ATMD support. A pre-planning meeting for the month of February will be held on the last Friday of the month, 26 January 1973. Work center supervisors are requested to bring a complete listing of their Technical Training Schedule and anticipated support requirements for February 1973.
- f. A pre-calendar/119 day inspection meeting will be conducted ten (10) days prior to each scheduled calendar inspection. The meetings will be held at 2000 in the Squadron Ready Room on the dates listed in enclosure (12). Mandatory attendees will include Maintenance/Material Control, Check Crew Supervisor, Crew Chief, and First Mechanic of Aircraft concerned. Personnel attending will be prepared to discuss immediate requirements, support needs, and any anticipated problems which will arise. Maintenance Admin will provide Maintenance Control representation with pertinent information i.e. high time components due for change, etc. The Flight Line NCOIC will assure that any aircraft due for calendar/119 day inspection will be inspected immediately prior to the meeting. This inspection information will update work to be accomplished during the check.

- g. The AIMD Monthly Maintenance Meeting for January Will be schedhled at a time to be announced.
- h. Technical Training, as indicated by enclosure (11), shall be accomplished by the work centers during regularly scheduled working hours when operational commitments permit. At least one (1) hour of informational training shall be given per week to all hands at the time and place designated by the work center supervisor. In particular, emphasis should be placed on the training and indoctrination of newly assigned personnel. Records shall be maintained by the work center supervisor regarding the lecture date, instructor, personnel attending, and duration of the training. Records for the preceding week will be submitted to the Assistant Aircraft Maintenance Officer.
- f. Pilot's Weekly Inspection Squadron pilots will be assigned to inspect squadron aircraft by the Operations Officer on a rotating basis. Pilot assignment will be Posted by 0800 each Saturday. Inspections will be accomplished by 1630 the following Thursday. Refer to enclosure (14) for additional infomation.
- j. Reference (d), H-46 Interim Airframe Bulletin 160 rotor blade inspection requirements, is discussed in paragraph five (5) of enclosure (3).
- 4. Self-cancellation. 1 February 1973.

ENCLOSURE (3)

e. Paragraph 6.A (3) of reference (d) is quoted as follows: "After group classification basic equipment group three blades shall be inspected in accordance with paragraph 10.B(2) prior to next flight and each (25) flight hours thereafter using MLF inspection equipment". Since MLF/XRAY Maintenance Control to ensure that (25) flight hour MLF inspection is accomplished and shall be programmed accordingly. This inspection will continue pending further information from higher headquarters. If suspect areas in the rotor blades are determined in the MLF inspection, then further XRAY inspection must follow. The circumstances may be such that the XRAY inspections can only be accomplished while in port.

ENCLOSURE (3)

# TECHNICAL DIRECTIVE COMPLIANCE

1. Information concerning the incorporation of AFC/AFB's will be passed at the scheduled pre-calendar/119 Day Inspection meetings.

# Ground Support Equipment

1. Periodic Maintenance (PM) inspections will be accomplished while in port.

### MONTHLY FLIGHT SCHEDULE

- 1. HMM-165 is scheduled to fly 580.0 hours during the month of January 1973. This computes to an average of 23.2 hours per day based on a 25 day operational month.
- 2. The Operations Department advises that the following types of flying will be accomplished during January 1973.
  - (1) Night flying
  - (2) Instrument day flying
  - (3) Test flights
  - (4) Normal operational commitments

ENCLOSURE (4)

# GENERAL ORDNANCE INFORMATION

1. Weapons systems firing will be scheduled as operational commitments permit.

ENCLOSURE (5)

# PRECISION MEASURING EQUIPMENT/SPECIAL TOOLS DUE FOR CALIBRATICM

1. The following is a list of torque wrenches and other measuring equipment due for calibration on 30 January 1973. This equipment is color coded yellow.

ENCLOSURE (7)

### TCOL BOX INVENTORY

- 1. Tool Boxes will be inventoried each month. Tool boxes will be due on the date that corresponds with the side number of the aircraft to which they are assigned. Aircraft 30=-33 will turn in tool boxes between the 15th and the 19th of the month. A two (2) day grace will be given when the crew chief is unable to get the tool box in on time. This will only be done after it has been arranged with the tool room. Each crew chief will be responsible for the tools that he has signed for. When a crew chief moves from one aircraft to another he will turn in the tool box for the aircraft which he is leaving. Tool boxes should be inventoried by the crew chief tefore it is turned in to the tool room. This is so that the crew chief can take the tools that he has picked up from other tool boxes and return them to the right box. All tool boxes are subject to snot inspections by the tool room.
- 2. An one failing to turn in tools that he has checked out prior to securing will not be allowed to check out any other tools until the first ones have been turned back in. This is the only way that the tool room will be able to have the tools for the jobs that are being done on the aircraft.
- 3. Torque wrenches have become a major problem in the so adron. People check them out and keep them until they are good and ready to turn them back in. This puts tool room personnel on the spot when a torque wrench is needed to get a certain job done. If this keeping of torque wrenches continues only certain people from the shops and sections will be able to check out torque wrenches.

ENCLOSURE (8)

# FLIGHT EQUIPMENT INSPECTION SCHEDULE

- 1. Assigned flotation equipment (MK-7,12 life rafts and LPP-1 troop vests) will undergo inspection during scheduled Acft Calendar Inspections in the month of January 1973.
- 2. The following pilots have SV2-A and LPA's due for check prior to 21 January 1973.

ENCLOSURE (9)

# CORROSION CONTROL/TREATMENT/PREVENTION

1. PREVENTION

Maintenance Control shall schedule at least two aircraft per day for washing by flight line personnel! Every aircraft shall be washed with soap and fresh water at least twice per month. Maxium use should be made of the wash rack facilities that have been made avaible to the squadron in Danang to reduce water consumption on ship. All aircraft engines shall be rustlicked every five days.

The Flight Line OIC is responsible for the external condition of the aircraft with regard to dleanliness and detection of paint failure ite. peeling, schatches, etc and consequent corrosion attack. In addition the flight line shall maintain records of aircraft washing and rustlick and shall supply work center 129 with a copy of these records weekly.

Crew Chiefs and shop personnel shall be instructed by the MCOIC of Corrosion Control on corrosion detection, highly corrosion prone areas and corrosion prevention methods.

### 2. DETECTION AND DOCUMENTATION

It is the responsibility of <u>all hands</u> to report corrosion attack on aircraft in the same manner they would report any other aircraft discrepancy. All corrosion treatment shall be documented on a maintenance action form (MAF).

All aircraft shall be inspected by work center 129 at least once per month. These inspections shall be coordinated to coincide with 7, 14, and 28 days checks when possible. During calendar inspections all aircraft will again be throughly inspected by the metal-smiths assigned to the check crew.

#### 3. TREATMENT

The corrosion control team (work center 129) shall be responsible for the treatment of all aircraft corrosion. Crew chiefs and 1st mechs will be present to assist the team when thier aircraft is being inspected and/or treated.

It is an absolute requirement that all squadron personnel become totally educated and involved in the prevention and detection of corrosion.

4. During the period of time that the squadron is in Subic Bay every effort possible will be made to ensure maximum use of the facilities located there. The corrosion control team will determine which aircraft can most benefit from treatment by the civilian contractor and will coordinate with maintenance control to ensure that aircraft are given priority.
