upon return from a mission we were instructed by AN Hoa tower to refuel at the "Industrial site". When we arrived at about 1430 the area designated had run out of fuel. I then asked AN Hoa tower for permission to refuel at the field. My request was denied and the reason given was that the new operations policy allowed no refueling of Helicopters on the field unless a low fuel state emergency was declared. I was not that low on fuel so I proceeded to Hill 55 for gas. It was full so I returned all the way to Marble Mt for gas. Time lost about 35 min. — It appears to me that in a "Combat" situation AN Hoa ~~Tower~~ airfield could have a little more flexibility.

all

On this date I picked up a pax at LZ 461 to drop off at USS BRINKLEY BASS. The ship was briefed to be at 115/10 (77), I proceeded there, but was then advised by the ship that it was in Da Nang harbor. Proceeded to the ship & dropped pax. I was brief to pick up the same pax at ~~1530~~ 1530. At that time I proceeded to Da Nang harbor, but ship was gone. I contacted Da Nang DASC, who could not find out the present position of the ship, I could not raise the ship by radio. DASC then advised me that the ship would be at 115/10 (77) at 1700, I had by this time wasted an hour trying to find the ship. I returned to MMAF. at 1645 I launched again, the ship was not at the briefed position. I contacted DASC and they could not locate the position of the ship. I finally made comm with the ship and they gave their position at CT 0188 with no TACAN capability. DASC could not locate them because they had no maps with a "CT" designation. The ship then advised me I couldn't come aboard until 1800 as they were "shoopping", when I asked their ETA for Da Nang harbor, the ship advised 2030 H. Having waited approximately 2 1/2 hours orbiting, both myself & my chase, I advised DASC unless there was a very good reason for the pax to come off the ship tonight, that I was in favor of this portion of mission #21 being cancelled. DASC concurred.

The mission could have been completed and alot of confusion avoided, if I had been properly brief as to the correct position of the ship at a specific time.

at about 2130 the C46 that was
 shot up and had to return to A-116. I called
 Percy Dase and asked for them to call Terminal Base
 and get another C46 down to A-116 ASAP as I
 had 4 emergency med cases pending. I called back
 10-15 minutes later and asked Dase if they had called
 Terminal Base for the C46 their answer was negative
 I asked why they hadn't called and they stated
 that there was some confusion. I indicated that
 we had just started that time and the med cases
 were the ones who were suffering. I then picked
 up the med cases with my gunship.
