27 JAN 70: Informed by base that mission #23 was
 on a hold due to weather in Phu Bai. Several
 minutes later base said that the working birds had launched and
 that I was clear to launch. I launched and proceeded to the
 working area only to find that the working birds had not
 launched. Also that the Hostage H/C had not been informed of
 the weather hold and the zone progress was in progress with
 no birds to lift the troops. I returned to mmAF to refuel
 and await further word on mission #23. Base launched me
 on mission #9. I proceeded to the ROK area only to find
 that the mission #9 working birds had not launched, I then
 returned to mmAF and shut down. I logged a 1.6 and
 every minute of it was a waste because the right
 people were not informed of the truth.
