On the first Med-evac (407) we arrived over M/E scene
 and there were no working birds - Called DASS
 and they did not know whereabouts of working
 birds. The Med-evac had a sucking Chest
 wound, Broken and severely bleeding legs and
 a bleeding neck. I elected to pick up the
 Med-evac rather than wait the working
 birds. The M/E was taken to 1st Med and I
 was back on station 15 min. prior to working
 birds on station. The M/E couldn't wait that
 long
