MMAF -> LZ 401 -> VR ROCKET BOLT
-> MMAF MISSION COMPLETE

20. NARRATIVE SUMMARY ATT: 1)) ATR: 1

Ops Discrepancy: On reaching LZ 461 at 0630 this AM, our section was informed by "Petty" that the morning portion of ^{MSU} 71 had been cancelled due to the LOH being down with a bad transmission. "Petty" informs us they had called this into division air the night before. Upon returning to MMAF we inquired of luminous ~~data~~ as to whether they had received any such info, & they said they had not. I am told by others who have flown the mission in the last week that this is the third time this has happened in the last week.
