SIGNIFICANT DELAY - The ground unit, that was being inserted, created significant delays in that they had an unsat. LZ prepared which was out of the fire zone and by the time a satisfactory zone could be prepared the delay had caused the entire package to run short of fuel.

OPERATIONAL DISCREPANCY - In addition to the above, the 14 actual <sup>(LIMA 14)</sup> was not inserted with the 1st wave and as a result we had no comm with the ground troops. For some reason, the ground troops (LIMA 14) were not up FM primary and we had no communication of any kind where the 46's took fire. This seemed to be a complete uncoordinated mission and the ground troops left a lot to be desired with their planning.

no better than 800' ceiling and 1 mile viz.

PAST 14 was apparently not notified prior, nor was  
there any one at LZ 210 to meet the A/C nor was  
there any need for this A/C. The ROARM  
had no work for this mission. It should have  
been cancelled several hours before.
