DTD/TIME OF DEBRIEF

170920H

Soyride primary radio operator used unsatisfactory radio procedures - His primary problem appeared to be either not listening fully or monitoring his freq. This required each flight checking in to call several times to get him and once in contact each flight had to repeat the RIO @ least once for him to copy - Generally when he asked for a report he said the RIO a/c trans. was broken - in the 30 min + on his freq all agencies calling in were read & clear

jehDTD/TIME OF DEBRIEF 191855H

Neither the HUIF nor myself was able to return fire on the enemy as the ground forces (Marines) were too spread out and therefore the CP did not have direct control over their immediate positions. Friendly troops were in a 500 meter area and fire came from 2-3 points outside their perimeter.

REMARKS:

Two sep. flights of F-8E were in the same area, controlled by different controllers. Suggest Landshark put one controller in charge of one man. escort so that there is no confusion as to who support is needed and who is controlled by whom. Controllers in area with basically the same mission: Bonnie Sue, Deadlock, Powerglide, Klondike.

 HUNTER? YES ☒ NO ☐ MARK RUN? YES ☒ NO ☐ FLIGHT LEADER PRESENT? YES ☒ NO ☐
 OFFENSES? YES ☒ NO ☐ FIRE INCIDENT REPORT? YES ☒ NO ☐
 DURATION: Feb END OF THE ROUTE 191705 H
 REMARKS: H. P. Ragan

Primary mission as HE with Rose Anne cancelled, so actual run mission was a secondary one. Recommend Jayride's communications be improved so that pilots would not have to waste flight time while repeatedly trying to contact them. Communications frequently garbled. As result of poor com. with Jayride 2 pilots made trip to Dong Ha, from Dong Ha to Chu Lai & then given a mission by Lopez 27 on the 270 Rd 25NM Ch 46. By the time the A/C arrived at this TGT fuel was becoming a problem.

DTC OF DEB RIF 201035 H

REMARKS:

Orig. contacted Sandshark B for EH msn. After orbiting from 0800-0845 they were turned over to Dream Hawk for DAs. Never told whether helos were coming up or not. Very reluctant to offer info concerning the msn. to pilot on part of controller. Finally, pilot requested secondary through foyride.

Dream Hawk 27 did a real fine job of marking and describing the target area. Much better than most.

DTG OF DEBRIEF 231415 H

REMARKS:

After becoming airborne, the victim's engine, as expected, was silent. The engine kept. The victim's engine kept running, but the fuel to the engine was cut off. I understood to be the fact that I was the victim's engine and ready to work. I was told to continue on my original mission. What it amounted to was a sudden death. While I was under the wing observation that I was being diverted. The result was that this report was made 15 min + 1000 ft / fuel after declining in altitude. I had 15 minutes of time remaining before being. I had 10 minutes, then was picked up by the half way through the run. They lost radar lock on 4 I then binged the flight at 040120N 10445W with 400 ft of fuel remaining. All debris was pulled out of the dump area.

after being scrambled from the EH alert pad, we contacted Dreambox-21. after landing 2 CH-46s near the target area, Dreambox proceeded to mark the target with smoke stating this was the area from which the helos + ground troops had been receiving fire. as stated above, we made about 16 passes, strafing and rocketing a group of "huts" located on the southernmost portion of the target area. Dreambox stated this was where he wanted the ordnance.

J. J. J. J.

We were called out to escort several C-46s
 engaged in a tractor of a forward UH-340. While
 in the zone the H-46s took fire from the area
 north of the LZ opposite the field from a USMC unit.
 A UH-340 was shot down and the pilot was killed.
 We were then called my flight down for
 support as described.
