REMARKS:

AT 1105 on a VFR let down & at 2000' I spotted 3PT in a line abreast formation ↓ ↓ ↓ at 20 NM on 020 Radial #37 heading 210° at a high rate of speed. There appeared 2 large white smoke puffs behind the center boat as I swung around them at 1000' they switched to a column formation and continued directly into the mouth of Danang Harbor, they were not flying any colors, nor was there any light signals exchanged nor was there a white star observed. - J. G. R. informed said they were friendly after 10 minutes.
