REMARKS:

While under Deadlock 11's control @ approx 170/14/85
 his wingman, Deadlock 10, was either shot down or
 took damage from a secondary explosion - the
 occupants were apparently unhurt as they continued
 transmitting for a short period after going down -
 Deadlock 11 landed next to him and seemed to
 have picked them up - we were forced to depart
 because of minimum fuel - an overhead flight
 was at long Ha proceeding to the area as we
 departed

REMARKS:

Following MSQ mission 401 flight was assigned
 A secondary mission with DREAMHOUR 24 3000 10 CH109.
 Flight entered target area under 200'-500' overcast,
 from 25 miles SE CH109. DREAMHOUR 24 reported
 many uniformed troops, ~~the~~ column along a trail.
 Troops were carrying their own dead. BDA 100%
 ordnance on target. KBA undetermined because
 bodies along trail included dead being carried
 and carriers. "friendly" artillery firing in
 area. DREAMHOUR 24 did a fine job vectoring
 flight under very low cloud cover and
 hostile fire.

DEG OF DEBRIEF 07/9/11

REMARKS:

I was the first of 5 or 6 Condors to go to Waterboy for a handoff to Milky. As the other A/C stacked up behind me I was told Milky had no targets. I then attempted to work with DEV "D" but their gear wouldn't work. I went back to Waterboy and at this time, one hour and 15 minutes after my target time, they were just beginning to work the other flights who had come behind me. I rendezvoused with another Condor but my fuel was too low to work then so I returned DNB and jettisoned 8 D2X.

DEFINITION

DOC OF CHIEF

071910

REMARKS:

- 1) Brief late due to assignment to hot pad + General Koulak visit. Pad was then launched.
- 2) Recommended that we not use D-35 due to weather. Was instructed to go anyway. We were going to attempt to level bomb at 1800 feet but D.H. 22 could not contact ground troops and it was felt that any attempt to drop would endanger friendly. No 2ndaries avail. attempted to TPG and after much mish mash it turned out that KLA's + B were & were getting in the Chu Lai area under Moan man control + shot an inst. approach.
