Extremely poor on-site control at the crash scene. Although Crewn "C" was at the site, he was not on the assigned freq — got him up by going card — used 2828 — He had no info to pass on. Mike Boats, Helicopters, 01 Cs, & Transient A/c great potential for midair — Central agencies, Landshark & Landshark A., & Joyride had little info over control of the SAR efforts. MH Sutton

REMARKS:

Flight leader checked with Joyride at least 4 times prior to launch, including when we were holding short of the runway, and was informed that the mission was still on a "GO" status. Leader aborted and A took off, only to learn while over Chu Lai that the weather was 300'-500' overcast and that no fixed wing were needed. A then completed a weather recce of the DNG-CHU LAI area for Joyride.

REMARKS: Recommend F8's armed w/ D2's be deck launched to support Opn Beacon Hill. Loiter time with this load is extremely limited and, with present wx condx, makes for very little time on target. Recommend that a/c which are fragged to be on station be armed with rockets and pairs of D2's rather than 8 on MER's.

DEBRIEFER [redacted] DTG OF DEBRIEF 25/15-38

REMARKS: Mission 0325-33 originally was a helo escort w/ Rose Ann #6 (2H-34s) TOT 1200 — Medl. delays resulted in a new TOT of 1300 which was approved by Gopnide at 1130 by the Fer. Ldr and again at 1230 — Upon reporting into Land Shark "C" at 1300 we were directed to contact Sacred Luna on LIME — No joy so returned to LS "C" who then gave direct to LS "B" for Klondike 11-[redacted] at Khe Sanh on Blown — No joy with KLNDK 11-0 — back to LS "B" headed Towards PHU BAI — Rec'd new freq. over PHU BAI from LS "B" for KD 11-0. Returned to Khe Sanh contacted 11-0 who couldn't use the flight — Returned to Dong Ha heard Sacred Delta requesting fixed wing from LS "B" — Offered the FS with D7/D9A/D20 — Expended on target with minimum fuel for acquiring Target & effective runs. — Extremely poor A/c control & the Hawk Tbk apparently cross tell circuits between agencies — see attached recon of A Shau valley & N.W areas. — [redacted]

These things can be extremely frustrating but we don't have a leg to stand on if we don't get airborne as scheduled. How much fuel was used screwing around in the Ashau valley ?
