DTG OF DEBRIEF

REMARKS:

1. Falcon asked that I make alternate runs on reciprocal headings 315°, 135°. I (apparently) received no fire on first run. On second at 6000' indicated I was startled to see about 25-50 gold tracers flashing over and under A/C, very fast moving. I continued to receive a steady "hail" of tracers until my nose was level. On next run, I moved to 40° dive with high pickle & received no (apparent) fire. I then shot up the target area with 20 mm from 12,000 down to 7000' (one long burst). Falcon advised this for his protection. I haven't seen a lot of AAA but this was the heaviest I've seen to date. IMPRESSED J.A. Reiser

REMARKS:

Seem say was 3 to 4 times the size of primary explosion and occurred almost at the same time as primary detonations. Height was substantial but difficult to estimate because of angle I viewed it from.

Recc coast Dong Ha to Chu Lai heavy coastal fishing traffic noted entire route. RM
