d. Morale and Welfare Program

(1) Seven (7) officers and nineteen (19) enlisted received R & R quotas during the reporting period.

e. Public Information. An extensive program of obtaining information news releases is presently in effect within this unit.

f. Casualties. Although having since been transferred from this squadron Major Charles L. CRONKRITE was killed in action during combat flight operations. Major CRONKRITE had continued to fly as a Staff pilot with this squadron until 21 June 1967, the day of his accident.

g. Intelligence and Counter-Intelligence. The Squadron Intelligence Officer was assigned as Condole Mission Intelligence Briefer from 12-18 June 1967.

h. Air Operations. Operations during June were only slightly less than the preceding month. Although one (1) aircraft was lost and several sustained damages the maintenance section was able to provide aircraft for sustained air operations. Six hundred and eighty nine (689) sorties were flown for a total of eight hundred and forty-one point four (841.4) flight hours. Flights continued into the DMZ area and gained experience in the use of APR-27 equipment in a SAM environment. Other operations were routine in nature producing no outstanding highlights.

The following is a statistical breakdown of air operations for June 1967:

	<u>June</u>	<u>Since November 1966</u>
Total sorties	689	4646
Squadron pilots	596	
Non-squadron pilots	93	
Total hours	841.4	5861.6
Squadron pilots	724.2	
Non-squadron pilots	117.2	
Night hours	163.8	1284.6
Instrument hours	66.5	876.9
Ordnance tonnage	902.1	4661.0

(1) Damages/Losses

(a) During June there were five (5) hit incidents by enemy action resulting in Echo damage not seriously affecting aircraft availability.

(b) Two (2) incidents of inadvertent (electrical malfunction) jettison of a single MHR resulted in Foxtrot damage.

(c) One (1) Echo incident resulted from the separation of a fuselage mounted zuni launcher. No injuries or damage to property.

(d) On 20 June 1967 one F8E and pilot were lost as a result of mechanical failure and suspected pilot unconsciousness upon water entry after ejection.

(e) One (1) Delta damage incident occurred as a result of aircraft flying through bomb fragments during air-to-air photo mission. Pilot was photographing a low altitude snake eye bomb run with the aerial pod-mounted ISO motion picture camera for CMC purposes. Damage repair did affect aircraft availability for several days.

o. Training.

(1) Two (2) pilots attended jungle survival training during June.

(2) One Aviation Ground Officer attended XM-47A school at MCAS Iwakuni.

(3) Sixty-six (66) hours of enlisted technical training were conducted during the reporting period.

(4) Seventy-seven (77) enlisted attended a 1.4 hour indoctrination lecture on the M-16E1 rifle. One hundred and forty three (143) have completed fam firing the M-16E1 Rifle.

s. Maintenance.

(1) Availability. A very average month resulted with June air operations. A slight decrease over the percentages for May occurred as a result of reduced tempo requirements. The average daily sortie rate dipped to twenty-three (23), the average daily hours to twenty eight (28). The aircraft utilization rate also felt the effect of June operations since average daily up aircraft held at six (6) aircraft. Average aircraft utilization rate dropped to one point nine (1.9) and the up aircraft rate to three point eight (3.8).

(2) PAR. Two (2) aircraft were delivered and three (3) received from PAR or COMFAIRWESTPAC during June.
