REMARKS:

Landmark "B" had poor comm. w/ 3 flights on station. The TA(A) was not airborne. LS directed all flights to utilize a free drop zone of "north of Ben Ha River along the coast" for each flight to utilize as they reached bingo fuel. LS "B" was unable to clear anyone into the designated free bomb zones due to existing counter mortar fire which they could not lift because of no comm.

REMARKS:

Diverted from pre briefed mission at epay 109 to 220°15NM #37 with Blackhat 1. We waited for 1405 but were unable to receive a tgt from #37 due to weather. Because of the weather at #37 we elected to jettison our ordnance in the jettison zone. After 30 mins (approx) with approach control we diverted to epay 109 because of traffic. We got repulsed @ 10000 ft, took off & contacted Jopside and were requested to another place 109 are. We did then returned homeplate.
