REMARKS:

① Don't believe TRAIL 33 knew exactly what the D-29's were, had us trying to drop on supplies & a hooch, also his calls for target seemed to vary from run to run.

② STRUCK other than flagged TGT.

15 knot discrepancy between Dev "D"s Machine and the aircraft A/S indicator. It is not likely that the a/c is that much off. TPQ's should have the aircraft fly hcs (AK) altimeter and airspeed when a large discrepancy exist.

REMARKS:

K. L. Beckett

Waterboy unable to handle, radar gear U, Rondff to Hillsboro and directed to descend over water to VFR below, reported bottom 12,000'. Flt Ldr contacted Hvy App. Con. for a/c separation. Upon reaching VFR, plt. returned to Hillsboro for control - Flt then advised to contact Waterboy for frequency to monitor during strike. Waterboy had no discrete frequency available - strike conducted on 269.6 mc. - unsatisfactory for conducting strike as too many other transmissions. Close coordination between Hillsboro & Waterboy could easily have precluded this difficulty.

REMARKS:

(1) While orbiting for the helo escort we observed what appeared to be the impact of three rounds, possibly mortars at 180/20 #37 Landshark reported no surface planes in this area (2) Blackcoat 11 did not report any return fire on the DRS, but Capt Pleasants thought he saw tracers on our run. I did not see this fire.

REMARKS: Upon arrival in target area we were informed that the flight was to be a "standby Relo cover - in case the UH-1E needed us in the landing zone". There were no preplanned targets scheduled for this flight. Apparently no effort was made by Kingbear "2" to obtain a target and the mission was a waste. After one hour on station we departed the area and proceeded to the jettison area and dropped the napalm. This mission was a good example of little prior planning on the part of the supported agency. Flights fragged with this ordnance loading should have some scheduled target available, otherwise the control agency should have been able to find us a secondary.

1. Requested BDA from Covey 57. Gave 9% on & 7% Coverage. Asked for BDA Again & got Same. Suspect he believes BDA is 7% Coverage.

2. Observed 20 Large, Single frame trucks on highway at ZD102001 at 0921H. Some were fuel type trucks. They were seemingly in Convoy without military Escort.

REMARKS:

1. First Controller Never Got Airborne, Landshark Held Us For Approx 40 Min Before Deciding To Send Us To Joyride For A Secondary Mission.

2. Only Secondary Avail Was At CH 85. We Got 1000# of Fuel From Ancestor Tanker Then Proceeded To #85.

3. We Were The Forth Flight In A Stack Waiting To Get On Tgt. - We Departed 85 After Approx 20 Min Of Holding With Two Flights Still Ahead Of Us.

4. Landshark Was Not Aware Of The Fact That The Scheduled Gunships For The Flight Were Not Avail.

5. Suggest All EH Flights Carry D-5's

REMARKS:

1) 7 flares were put into valley nicely after 2-3 tries. Could not see very well. Recommend snakes if this type hop is to be continued, however also recommend that it not be continued unless specifically acknowledged that this is simply harassment (for the enemy). If targets could be seen which they can't (roads maybe) you can't see them when you're set up for dive bombing (not even roads). Too dangerous for good it's doing

REMARKS:

The target was on a ridge line and I dropped my first bomb on tgt. It turned out to be a dud. My second bomb was 75 to 100 meters long and went over the ridgeline.
