REMARKS:

ON 4th RUN ON PRE-BRIEFED TARGET WHITE SMOKE BILLOWED OUT OF TREES AND CONSTANT FLASHES COULD EASILY BE SEEN. IT APPEARED TO BE THE SAME SIZE EXPLOSIONS THAT 20 MM HET MAKE WHEN EXPLODING ON CONTACT. THE FAC HEARD 3 LARGE SECONDARY EXPLOSIONS BUT NO BLACK SMOKE CAME FROM TGT EXCEPT AFTER ONE D-2 EXPLODED. ONE INTENSE FIRE WAS STILL BURNING WHEN WE DEPARTED THE AREA. IT WAS WHITE SMOKE LIKE W.P.

****

REMARKS:

Assigned AC with Ancestor flare plane for upper Oshan Valley. Made several flare runs - unable to identify targets or Valley clearly due to WX. Requested a divert to TPQ to expend ordnance prior to return. Coordinates as noted. Good Flare plane support.

REMARKS:

Joyride diverted flt immediately after T.O. from original mission to 4/5 B control to work with Covey at #85. Weather and fini-flt back-up of other strike aircraft precluded this ~~flt~~ flt leader diverted to Dev O control for TPO. Held for approximately 30 mins then told Dev O gear down. Joyride diverted flt to 4/5 for Dev B control. Dev B unable to make radar contact. Flt recovered with ordnance on fuel bingo.

REMARKS:

2. LandShark 'B' @ 1130 - Radio Failure TACA(A) - YD242599
3. Pilot @ 1155 - Low Fuel - XD844420

1. upon Arrival KheSan for original tgt, Comey 57 directed us to L/S "B" due to wx on tgt. L/S "B" had no alternate mission and no time open to Joyride. We were unable to contact Joyride due to altitude & distance. L/S "B" had us inbd for a tgt. At Bingo fuel we were told tgt was available & important & for us to inflight refuel. Took #5000 of fuel each & went to tgt. Had Trail 66" (TACA) in sight & reported in the vicinity & then went home with no communications. Went back to L/S "B" & was sent back to original tgt. Wx still bad & we were 5th flight in stack. Joined up until Waypoint 3-1 (TACA) & dropped in Aban airfield area. Very poor planning for useable a/c.

****

REMARKS:

It is questionable whether the pilot of a single place aircraft is capable of spotting targets under the flares. The shadows caused by mountains and swinging flares plus fog in the hills puts everything out of perspective. It may be that a two-place aircraft would allow the RO/BN to really lookout and study the area. This is not possible in a single place. The only thing I saw that I knew was the airstrip at TA BAT. Just too busy flying the plane.

Flare plane was dropping at 8800. Might try higher, because a number of flares were still burning when they hit the ground.

We dropped on the airstrip and adjacent roads. BDA unknown

REMARKS: FLARE SHIP DID AN OUTSTANDING JOB!!
#3 Runs were made on hdg 330° on road at coord YD 360 -020. On 2ND AND 3RD PASSES AS AIRCRAFT WAS APPROACHING lowest point in pull-out observed several quick flashes from mountainside to right of run in hdg at approximately same altitude as aircraft. (3000') changed runin hdg to 150° and hit the road at YD 275-095. On two passes at these coordinates no flashes noted from area previously seen. Estimate at least 2 road cuts.
FAVORITE 895 DID PERFECT JOB!! DE Cathcart.

REMARKS:

I neglected to turn off my lights during a strafe run 300° 15 nm from Ch. 109. I started a right break away when Dev "D" said "break port to 120° for homeplate." upon rolling back to a left turn, I observed the sky fill with tracers from a position 30° left of the 300° hdg and almost directly below. I was fascinated for a moment before I realized that I must be the target. I saw the bombs detonate on the ground and the tracers continued from at least 3 separate positions until I had completed the turn to 120° and extinguished my lights. I estimate the tracers were peaking out at 8000'.

DECLASSIFIED

DECLASSIFIED

it was a high rate of fire but only one source from each position. the positions must have been several hundred meters apart. the tracers topped out and continued to burn back towards the deck. many of the rounds appeared to flash just prior to disappearing. as though they were exploding.

I estimate the position at YD 015 700 approximately.

JE Cathcart

DEBRIEFER DTG OF DEBRIEF 091607

REMARKS:

Scheduled CAS with target time 1300... birds were manned when ready at 1305 - airborne at 1320 proceeded to ch69... hS"C" told us to contact Oakgate 4-1 for control which we tried... no joy and hS"C" gave call finally getting hold of Bonnie Sue 2-1... informed that Oakgate 4-1 was checking weather in target area... after about 35 min finally turned over to Dreamboat 36 for control... he found no targets where the weather was good enough to drop... turned over to hS"B" which had action up at Dong Ha... fuel became the factor which decided our turning back to Danang

Recommend: better co-ordination between hand sharks especially since hS"B" had some hot targets going... Fishcraft pancaked Danang without further incident...

J.D. Borgman

REMARKS:

We were scrambled off the air-to-ground hotpad and sent to 4/5 B. They held us at Dong Ha for about 10 minutes then sent us to Irail 65. He couldn't use us so we went back to 4/5 B. We were passed to Hanchin 14 who passed us to Covey 52. We was low fuel so we orbited the Sand till Covey 57 got airborne. Then we bombed some empty trench lines on a hill west of the Sand.

I don't feel this is the mission of the hotpad. There could not have been to urgent a need because we were held approximatly one hour and shuffled from controller to controller. What if some ground troops would have been in trouble south of Danang and really needed air while the hotpad was bombing hilltops at the Sand??? J. Brown

REMARKS:

Proximity of friendly troops precluded the use of anything except 20mm to stop opposing fire. We were not effective except to drop DIA's at suspected VC in tree line.

H. Kittle

REMARKS:

Hillsboro suspected bridge takes out. Bridge still looks usable, however, it's been repaired. Looks like repairs in form of dirt fill. No sign of an attempt to by-pass bridge. One hit this flight severly cratered immediate eastern approach, however, it appears easily repairable. Hillsboro requested this info upon our returns from target, but their radios were broken and unreadable, so we couldn't pass this info.

DEBRIEFER _____ DTG OF DEBRIEF 101543

****

REMARKS: JUST PRIOR TO FALCON MARKING TARGET A WHITE PHOSPHOROUS FIRE WAS OBSERVED 1000 METERS LEFT OF TARGET. SUSPECTED IT TO BE A POOR ATTEMPT TO DRAW OUR FIRE TO DECOY OFF FRAGGED TARGET OR FOR A FLAK TRAP. FALCON SUGGESTED STRAFING THE POSITION BUT WE DECLINED. DISCOVERED LATER THAT FLIGHT FOLLOWING OURS DID STRAFE THE POSITION AND RECEIVED HEAVY GROUND FIRE.

2 MK 84 1000# Bombs.

I feel 2-750# Bombs for targets such as roads + TRUCK PARKS ARE NOT VERY PRACTICAL. 1500# compared to 4000# makes a big difference in results.

****

REMARKS:

Ground fog obscured most of the valley floor.

Suggest flare plane keep valley lighted continually while fighters are working. Don't flare plane let each string burn out then put out a new string. If valley is continually lighted it allows fighter to set up his pattern. Once the flare go out he has to orbit waiting for more flares to set up for next run.

DEBRIEFER JCW DTG OF DEBRIEF 203204

REMARKS:

Arrived at assigned orbit point of 180/20 CH 109, 10 minutes Prior to TOT. Waterboy now one A6 ahead of me & pushed my target Time back. Experienced generator failure at 0148 & headed home. Contacted Waterboy on Emerg. generator & got outstanding handling. Was handed off to Pensono and Petroma took me on Radar & handed me to approach Control who Vectored me to jettison area. Ordnance was Safe when released and no surface vessels in sight. Outstanding coordination between Waterboy, Pensona & Approach Control — Very gratifying —

Inside Sam Ring

DEBRIEFER JCH DTG OF DEBRIEF 140308H

REMARKS: SCRAMBLED FOR EMERGENCY MEDIVAC. UPON ARRIVAL TARGET MEDIVAC REQUESTED THAT WE MAKE DRY RUNS UNDER THE FLARES TO DISCOURAGE CHARLIE. THE FRIENDLIES WERE TOO SCATTERED TO PERMIT DELIVERY OF ORDNANCE ALTHOUGH NEARLY ALL SOURCES OF ENEMY FIRE WERE EASILY IDENTIFIED FROM THE AIR. SNOOPY WAS AT 3500' THE MEDIVAC H-34'S WERE AT 4000' (APPROX) THE ESCORT WAS AT 2500' estimated. WE MADE MULTIPLE RUNS BENEATH THE FLARES BUT THE FIRE ONLY INCREASED IN INTENSITY. SNOOPY WAS A PRIME TARGET FOR A WEAPON THAT HAD TRACERS EXCEEDING CONFIDENTIAL HELICOPTERS GAVE UP. WE ORBITED with SNOOPY UNTIL DAYLIGHT.

DEBRIEFER [redacted] DTG OF DEBRIEF 4/19 21

REMARKS:

After completing med. voc corner. Blackcoat 7 gave us a target for strafe. The target was marked [redacted] friendly position were told to be south of a river, we were cleared to fire on north side of river. One strafe run was made with #2 making a short burst. Then Blackcoat 7 came up & said the friendlies were on both sides of the river. There were no casualties, however this could be disatrous. Blackcoat 7 should have all the work on friendly positions before clearing pilots for an attack.

REMARKS:

Helos Were Late Getting Airborne - We Were On Station From 0735 To 0840. Choppers Showed Up at 0810 & This Cut Down Our Available Fuel For Cover With The Choppers.

Oak Gate 41 Did A Real Fine Job of Controlling - He Finally Used Fixed Wing Strafing The Outer Perimeter of LZ at The Same Time As The Pickup - Glad To See Someone Finally Use This Tactic! Also Extraction Came-Off Without A Hitch!

Norman Marshall

DEBRIEFER _____ DTG OF DEBRIEF 15 2130 H

REMARKS:

After take off turned out to 090 started climb and contacted Joyride - Joyride said to stand by - noted AC yawing abnormally started trying to trim out yaw Checked landing gear indicator and Starbord main was indicating down - started blowing both and Joyride came back up - said I had been diverted to Deristate Delta. Told them that I wasn't told to work with Delta on ground, but had been told to work with Moon man & King Bee. Told Joyride I would [redacted] talk to them when I got back on deck. Switched over to moon man and couldn't Establish contact. Switched back to tower. Notified them of my position and problem and said I would be landing in aprox. 10-15 min. [redacted] Dumped wing fuel. Returned to Danang - Contacted Joyride when in chocks - Also Panama Told Joyride about Landing Gear problem at that time.

L J Carroll
