PART I - Organizational Data

1. Command and Staffs

a. Commanding Officer and Executive Staff

Commanding Officer	LtCol Earl E. JACOBSON, Jr.	1-17 Aug
	LtCol Lewis H. ABRAMS	17-31 Aug
Executive Officer	Major Gordon P. EMERY	1-27 Aug
	Major A.W. David LAVIGNE	27-31 Aug
Administrative Officer	Capt James L. ANDERST	1-27 Aug
	Major Lester D. WIDICK	27-31 Aug
Intelligence Officer	Capt Michael W. TIERNEY	1-31 Aug
Operations Officer	Major John A. MARTIN	1-27 Aug
	Major Gordon P. EMERY	27-31 Aug
Logistics Officer	Capt John BUTCHKO	1-24 Aug
	Major Henry C. DEWEY	24-31 Aug
Maintenance Officer	Major Fred J. CONE	1-31 Aug

b. Special Staff

Safety Officer	Major Henry C. DEWEY	1-24 Aug
	Capt James J. NEAL	24-31 Aug
Flight Surgeon	Lt (MC) William F. ARNDT	1-31 Aug
Supply Officer	1/Lt Earnest YOUNG	1-27 Aug
	1/Lt Antonio SCENNA	27-31 Aug
Headquarters Flt Leader	Major Gordon P. EMERY	1-31 Aug
"A" Flight Leader	Major John A. MARTIN	"
"B" Flight Leader	Capt James K. ENGSTROM	"
"C" Flight Leader	Capt Michael W. TIERNEY	"

2. Task Organization and Location

VMA(AW) 242 - DaNang A.B. Republic of South Viet Nam.

3. Average Monthly Strength

a. Naval Aviators -	16
b. Naval Flight Officers -	18
c. Ground Officers -	4
d. Flight Surgeon -	1
e. Enlisted Marine -	276
f. Enlisted Navy -	2

4. Visitors to the Command

Admiral DUPAIX, Commander Carrier Group 7 visited the Squadron area on 2 August 1967 and Captain MARSHALL, USN, Commander, 3rd Construction Regiment, flew a mission with Colonel A. O. SCHMAGEL, Commanding Officer of Marine Aircraft Group 11.

PART II - Narrative Summary

August 1967 witnessed the first large input of replacement aircrews. The aircrew assignments within the squadron were revised to fly a more experienced crew member with each replacement crew member to shorten the transition period. A Change of Command ceremony was held 17 August 1967 as LtCol Lewis H. ABRAMS received the squadron colors from LtCol Earl E. JACOBSON.

A daily visual armed recce sortie was added to the schedule during August and a modified P2 camera pod was adapted for use with the A6A as a means to gather instant bomb damage assessment on night strikes.

Civil Action programs continued with good success.

Maintenance continued to be hampered by a lack of ground support equipment while the airconditioning problems of earlier months were remedied.

PART III - Significant Events

1. Personnel. Forty-nine enlisted and six officers joined the squadron during August. A new squadron order for job assignments was published 1 August (See Appendix A, Tab 1 and 2). On 17 August LtCol Lewis H. ABRAMS relieved LtCol Earl E. JACOBSON as Commanding Officer in a formal ceremony held at the squadron hangar, (See Appendix B). One officer was released on a leave of absence to attend Law School in CONUS. Early rotation as part of the closed cycle A6A program, got underway as fifty enlisted and four officers were transferred to 2d MAW. A five man detachment is being maintained at NAS Cubi Point, Philippines for the Corroison Control and Compass Swing program. One officer was promoted to first lieutenant while two enlisted received meritorious promotion to sergeant. One sergeant reenlisted for four years and five enlisted extended their Vietnam tours. One enlisted returned to CONUS with less than sixty days remaining. The squadron reached 84.8 percent participation in the Savings Bond Program during August.

UNCLASSIFIED

3:RCT:jmt
003A25367

UNCLASSIFIED

2. Administration. N/A.
3. Awards. During August 1967 47 Aircrew members were awarded the Air Medal (See Appendix C).
4. Casualties. One civilian was medevaced to CONUS as a result of non-hostile injuries.
5. Civic Action. During August the squadron Civil Affairs members continued to distribute clothing, soap, and other goods to the villages in the District of Ap Mot while school supplies were donated to two kindergarden schools. The squadron continued to send a man with the MAG-11 Medical Team on MedCap as an interpreter for the French speaking Vietnamese nurses. This has proven to be exceptionally beneficial to the Medical people in overcoming the language barrier. At the end of the month a project to build a house in Hoa Phat for a woman with five children whose house burned down was begun.
6. Morale/Welfare Programs. Nineteen squadron members participated in out-of-country R&R, four in in-country R&R, two took fishing trips, and one visited Chu Lai. After winning the MAG-11 softball Championship eight members of the squadron team were chosen for the All-Star team.
7. Informational Services. Fifty-seven Fleet Home Town news releases were submitted in August, including a photo story on the Change of Command held 17 August 1967.
8. Intelligence/Counter Intelligence. A radar survey of Special Forces Camps in I Corps area has been completed and folders for each camp are being updated. Radar reflectors must be installed or repaired in the camps that are not radar significant. A liaison meeting was held with "C" Team Special Forces Company in conjunction with the installation of radar reflectors in I Corps Special Forces Camps. The squadron received a 35mm reader printer to be used in conjunction with the radar camera, now being utilized in the squadron's system aircraft.
9. ECM. N/A.
10. Photo. N/A.
11. Air Operations. During August VMA(AW) 242 flew 374 sorties for 500.8 hours. Night sorties numbered 320 for 428.5 hours. Ordnance expended was 1714.25 tons.(See Appendix D and E). Missions were flown into the entire I Corps area with daylight armed recce's concentrating on the A Shau Valley.

UNCLASSIFIED

3:RCT:jmt
003A25367

UNCLASSIFIED

At night, missions were flown throughout the entire I Corps area as well as Tally Ho and Rolling Thunder missions to Route Packages I, II, III, IV, V, VIA, and VIB.

12. Air Defense/Control. N/A.

13. Special Operations. In August a program to provide a means of gathering Instant Bomb Assessment (IBDA) intelligence was initiated. This program utilizes a photo pod from a P2 aircraft which is installed on the centerline station of the A6A, facing rearward. It is hoped by its proponents to afford the attacking aircraft a means to photograph its run by dropping flares and photographing the area immediately aft of the aircraft. Early results proved limited and the equipment is being redesigned for future tests.

14. Ground Defense. N/A

15. Command Relationship/Command and Control. No change in August.

16. NBC Warfare. N/A

17. Training. Aircrew training was conducted for newly arrived aircrewmembers. The squadron was advised that TAD funds for schools run by the U. S. Navy would not be available until next quarter thus cancelling the programmed formal training in August.

18. Logistics. See appendix F. and G.

19. Supply. N/A

20. Motor Transport. The average availability for the six vehicles assigned was 93.6 percent during August.

21. Engineering. N/A

22. Maintenance. The first increment of the three new maintenance vans arrived during August and were made operational for repair of Ins-Doppler navigation systems; the MA-1 Compass; the AWW-1 ordnance system; and the ADC (Air Data Computer). Several new air conditioners were received by the squadron and are being evaluated, thus maintenance air conditioning ceased being a problem. During August the squadron operated with one GTC air starting unit, and no air compressors after 25 August. Air tools were operated with pressure from nitrogen bottles. Power (220 volt) in the hanger has not been available since the rocket attack of 15 July.

UNCLASSIFIED

3:RCT:jmt
003A25367

UNCLASSIFIED

23. Avionics. Began experimentation with a P2 photo pod mounted on the centerline of the A6. The purpose of the photo pod is to provide instantaneous bomb damage assessment.

24. Base Development/Construction. During August the squadron cantonment buildings were repaired after being damaged in the rocket attack of 15 July. Work was also begun to repair rocket damage to the hangar.

25. Communications/Electronics. N/A

26. Ordnance. Total ordnance expended in August was 1714.25 Tons

128	250#LD Bomb MOD 1 w/cable
6699	500#LD Bomb MODS w/cable
36	750#DM Bomb M 117A1

MARINE ALL WEATHER ATTACK SQUADRON 242
 Marine Aircraft Group 11
 1st Marine Aircraft Wing, MAF, Pacific
 c/o FPO San Francisco, California 96602

LHA/HCD/rah
 4000
 15 August 1967

From: Commanding Officer
 To: Commanding Officer, Marine Aircraft Group 11 (Attn: S-4)
 Subj: Logistics Status Report
 Ref: (a) GraO 4000.110
 Encl: ✓(1) AFA Deficiencies

1. Commanding Officer's Evaluation

a. Identifiable Trends

(1) None

b. Key Factors and Major Problem Areas

(1) The major problem continually confronting this squadron is the lack of adequate ground support equipment.

(a) Mobile Air Conditioners are not considered a problem at this time. Six (6) air conditioners are available for use, however; two (2) models, one (1) A/M 320-10 and one (1) jury rig air conditioner require a TC-85 to operate.

(b) Sats Loaders - One (1) loader is normally on hand and kept operational with an effort on the part of the maintenance crew. It is felt that one (1) loader cannot meet normal daily commitments without undue strain on personnel and equipment. With any increase of commitments one (1) loader has been found to be completely inadequate.

(c) Mobile Electrical Power Units - Of the four (4) assigned there are normally two (2) operational. A need of seven (7) TC-10's has become obvious. The 440 volt hanger power has not been available since 15 July thus precluding any systems work in VM(AM) 242 hanger area.

APPENDIX F

Subj: Logistics Status Report

(e) The squadron has five (5) CTC-85 assigned. Two (2) have been ~~deadlined~~ for engine change since 30 June 1967, and 13 July 1967 respectively. One (1) CTC-85 is constantly used to supply power for the jury rigged air conditioning unit. Of the remaining two (2) units one (1) is a high oil consumer and will need an engine change in the near future. With the increased flight schedule the present assigned CTC-85's will not support flight operations. It is recommended that IAMS-11 ground support section complete maintenance required on a more expeditious schedule.

2. Significant deficiencies in operating stocks:

a. None

3. Significant deficiencies in Navy Furnished Equipment:

a. NSA - None

b. APA - See Enclosure (1)

L. H. ABRAMS

Subj: Aircraft Maintenance Logistics Summary Report (LOGSUM)

Ref: (a) CG, 1st MAM Ltr 43:CKB:fw over 4000 dtd 26 April 1967
(b) Force Order 4000.1E dtd 16 Oct 1966
(c) OPHAVINSE 05412.4A dtd 14 April 1966

1. In accordance with references (a), (b) and (c) the following report is submitted:

a. Aircraft Status

<u>ACFT TYPE</u>	<u>ALLOW</u>	<u>O/H</u>	<u>% READY</u>	<u>% NORS</u>
A6A	12	12	16.2%	37.5%

b. Comments on excessive NORS/NORM percentages.

(1) During the month of August 126 NORS/G requisitions were initiated in addition to 1 unfilled NORS/G requisition brought forward from the previous month. Of the 126 NORS/G requisitions for August 90 were filled by Group Supply. The average time required to complete each requisition was 2.6 hours. The remaining 36 requisitions were passed off station. Of these 13 were filled with an average of 135 hours supply reaction time which is considered to be excessive. The 1 unfilled NORS/G requisition brought forward from the previous month was filled during the month of August.

(2) During the month of August 78 NORS/H requisitions were initiated and 46 unfilled NORS/H requisitions were brought forward from previous months. Of the 124 NORS/H requisitions 91 were completed during the month of August. The average time required to complete each NORS/H requisition was 72.3 hours. This represents an excess of supply reaction time.

(3) The NORM percentage this month is attributable to 127 hours used in cannibalizing ECM equipment. Lack of this equipment has necessitated keeping flyable aircraft equipped with subject gear. Four aircraft were damaged by hail and required 177 hours to repair same. One radome had to be replaced. Two aircraft were down at the end of the month requiring 192 hours for fuel cell changes.

Subj: Logistics Summary Report (LOGSR)

c. Critical items.

<u>ITEM/IN</u>	<u>ABBREVIATION/ENCLATURE</u>	<u>MOORE DEMAND DATA</u>
28. 6616-571-1011 VMO	TRANSMITTER	18
28. 6615-602-0805 VMO	SWR	11
28. 6615-531-43.9 VMO	SWR	10
28. 6620-972-8191 VMO	SWR	10
28. 1602-758-0976 VMO	SWITCH	6

d. Significant Problem areas.

(1) The significant problems are related to and are pointed out in the previous paragraphs.
