PART I - Organizational Data

1. Command and Staffa. Commanding Officer and Executive Staff

Commanding Officer	LtCol Fred C. RILLING, JR.	1-14 Jan
	LtCol A. K. FRAIN	15-31 Jan
Executive Officer	Major Luther A. LONO	1-31 Jan
Administrative Officer	Capt James E. SABOW	1-31 Jan
Intelligence Officer	1stLt Thomas L. THOMPSON	1-15 Jan
	Capt John R. LUCAS	16-31 Jan
Operations Officer	Major Thomas B. JACKSON	1-31 Jan
Logistics Officer	Capt Louis L. CCHOCKI	1-20 Jan
	Capt Joseph B. TURNER JR.	21-31 Jan
Maintenance Officer	Maj Jacob E. ILES	1-25 Jan
	Maj Bobby J. NEWSOM	26-31 Jan

b. Special Staff

Safety Officer	Capt James H. STONELL	1-31 Jan
Flight Surgeon	Lt(MC) Gordon E. BRAUNINGER	1-31 Jan
Supply Officer	2ndLt Henry S. TRENTMAN	1-31 Jan

2. Task Organization and Location

VMA(AW)-242 - Danang A. B. - Republic of South Vietnam

3. Average Monthly Strength

a. Naval Aviators	-	13
b. Bombardier/Navigators	-	14
c. Ground Officers	-	7
d. Naval Flight Surgeon	-	1
e. Marine enlisted	-	220

4. Visitors to the Command. On 3 January MajGeneral YOUNGDALE was presented with a static display of the A-6A system. On 14 January Major JACKSON briefed BrigGeneral HILL on the squadron's A Shau and Beacon missions.

PART II - Narrative Summary

Flight operations for the month of January 1969 progressed along the general lines of the month before. On 10 January our frag changed to include three beacon hops, three direct air support hops in the A Shau Valley and the remainder TPQ's. During the early and middle days of the month the fire incidents in both A Shau and the An Hoa area increased considerably.

On 14 January LtCol A.K. FRAIN relieved LtCol F.C. RILLING JR. as Commanding Officer of VMA(AW)-242. On 16 January LtCol A.K. FRAIN flew the squadron's 10,000 combat mission in southeast Asia.

SECRET**ORIGINAL**TBJ:dln
8Feb69

On the night of 17 January DT-07 with Capt FICKLER and Lt KULHMAN failed to return from their mission in the A Shau Valley. A comprehensive rescue effort was initiated with negative results. Indications point to their being shot down by enemy 37mm guns. However, no wreckage has been sighted.

VM(AW)-242 broke its tonnage record this month by dropping 2743.113 tons.

Systems availability during the month was very low. Due to a good maintenance effort we have continued to make most of our commitments although often times with partial systems.

Because of our beacon hops, BDA picked up this month to include 20 KBMA.

PART III - Significant Events

1. Personnel. During the month, two officers and 13 enlisted personnel were joined while seven officers and 13 enlisted personnel were transferred. One officer and 2 enlisted were promoted during the month.
2. Administration. Semi-annual fitness reports for Sergeants and above were completed and submitted. Semi-annual conduct and proficiency marks for Corporals and below were compiled and entered in the Service Record Books.
3. Casualties. First Lieutenant Robert J. KUHLMAN Jr. 094382/7583, USMC, was missing in action 17 January 1969. The aircraft in which he was flying as Bombardier/Navigator was conducting Direct Air Support/Armed Reconnaissance against enemy infiltration routes into South Vietnam. At 2125 the last radio contact with the aircraft was made by NDDAYE 05. A visual and electronic search was conducted in the A Shau Valley, supplemented as conditions warranted by photographic aircraft. The search was discontinued as of 1600 hours 24 January 1969. The results of the search were negative.
4. Morale/Welfare. Twelve Marines participated in the Out-of-Country R&R program and five Marines participated in the In-Country R&R program. Two Marines took annual leave.
5. Career Planning. Three Marines requested six month extensions and one Marine requested a three month extension. All were forwarded recommending approval. Seventeen career planning interviews were conducted by the Squadron Career Planning NCO. The wing career planning section inspected the squadron career planning unit, the results were satisfactory with minor discrepancies.
6. Education. All personnel reporting aboard were given education interviews. Four Marines enrolled in USMFI courses and two in MCI courses. Three final examinations were administered. One MCI course certificate of completion and two GED test results were received.
7. Bonds. The overall average was 76% with a low of 74% and a high of 78%.
8. TIO. There were 44 home town news releases processed this month.
9. Awards. During January 31 Air Medals were earned by 28 NAs/NFO's. One DFC was awarded Major JACKSON.

2.

10. Air Operations. During January VM(AW)-242 flew 374 sorties for 447.0 hours expending 2743.113 tons of ordnance. The squadron launched 81 full systems sorties with 67 full systems up over target for an average of 82%.

UNCLASSIFIED

a. Sorties Flown in Support of:

(1) 7th Air Force	2
(2) III MAF	113
(3) ARVN	239
(4) ARVN	6
(5) Marine	7

b. Ordnance Delivered by Types as follows:

<u>NALG</u>	<u>NOMENCLATURE</u>	<u>AMOUNT EXPENDED</u>
E482	Bomb, 500# GPLD, MK-82 - W/Cable	9392
E507	Bomb, 1000# LD, MK-83 - W/Cable	51
E184	Bomb, Container, GBY-2/B	105
E173	MK-20 (ROCKEYE)	6

c. Bomb Damage Assessment. The following represents confirmed BDA for the month of January:

Structures Destroyed	2
Secondary Explosions	15
Secondary Fires	10
Meters Tree Line Destroyed	500
KBMA	20
Trucks Destroyed	1
File Supplies Damaged	1

d. Aircraft Dispersal: During the month of January three aircraft were diverted to Ubon, Thailand, on the 20th and 21st for weather, and aircraft malfunctions, and one on the 22nd because of rocket attack. All aircraft returned to Danang the following day.

11. Aviation Safety. The command had one Alfa Damage accident due to direct enemy action. There were no reportable incidents or ground accidents this month.

12. Special Operations. During the first part of January we operated much like the last of December. On 10 January we dropped three A Shau DAS hops and picked up three Beacon hops on the frag. As a result our BDA has increased including 20 KBMA on a beacon flight.

During the month of January Lt. KUHLMAN, Capt. QUILLID, and Capt. STOWELL presented briefings on the A-6A/F-4C Beacon concept of operations to the below listed commands:

Enclosure (1)

UNCLASSIFIED

UNCLASSIFIED

<u>COMMAND</u>	<u>LOCATION</u>	<u>BRIEFER</u>
2nd MAW STAFF	DANANG	LTKUHLMAN
24 CORPS	PHU BAI	CAPT STOEELL
3rd MARDIV	DONG HA	" "
TASK FORCE "H"	DONG HA	" "
101st AIRBORNE	PHU BAI	" "

This concept of briefing commands in the I Corps area was conceived by this squadron in an effort to indoctrinate the potential users in I Corps of the capabilities and limitations of the A-6A aircraft when used with the FAC Beacon. The results have proven to be most satisfactory to date as the briefers have reported that interest is high and previous knowledge almost non-existent. More beacons are enroute as are new aircraft which should constantly improve I Corps Tactical Commanders ability to employ all weather close air support.

13. Basic Training. During January the squadron held gas chamber exercises for all officer and enlisted personnel. Lectures were held for newly arrived personnel. Also, the squadron has held weekly aircrew training. In addition, on 29 January Capt ASHFORD, USN gave a DECOM lecture at RINGNECK for all available crewmembers.

14. Logistics. See Appendix "C"

15. Motor Transport. The average availability in January for eight vehicles assigned was 98.1%.

16. Maintenance. VMA(AW)-242 averaged 07.9 aircraft availability per day with a NOR time of 2421.1 hours for 30.8%. The MORS time was 795.1 hours for a 10.1%. The squadron flew 447.0 flight hours with 1,167 scheduled maintenance hours and 1,254.1 unscheduled for a 109.3% utilization. The squadron launched 81 full system hops with 67 over target and 55 at landing. There were 65 partial system launches, 54 over target and 54 at landing. The average sortie length was 1.2 hours. VMA(AW)-242 dropped 2,743.113 tons during the month of January.

MARINE ALL WEATHER ATTACK SQUADRON 242
Marine Aircraft Group 11
1st Marine Aircraft Wing, FMF, Pacific
FPO San Francisco, California, 96602

O4: DEN:de
4000/1
2 Feb 1969

From: Commanding Officer
To: Commanding Officer, Marine Aircraft Group 11 (Attn: S-4)
Subj: Aircraft Maintenance Logistics Summary Report (LOGSUM)
Ref: (a) CO, MAG-11 ltr O4:RST:jab over 4000 of 27 Jan 1968
(b) CG, 1stMAW ltr 43:PEM:lbd over 4000 of 20 Jan 1968
(c) Force Order 4000.1E
(d) OPNAVINST 05442.1A

1. In accordance with references (a), (b), (c), and (d) the following report is submitted:

a. Aircraft Status: Of 10 A6A aircraft assigned a 30.8% NORM rate is due to the following reasons:

BUNOS 149951, 149954, 152598, 152993 were down for scheduled maintenance.

b. Critical Items:

1 Hydraulic Reservoir RM 1650-971-2530

c. Significant Problem Areas:

(1) Stabilized 400 cycle commercial electrical power for the radar docks was requested on 18 August 1968 on work request number M-11-65-69. Present power is supplied by a 60KVA generator with an unsatisfactory 30KVA generator as a backup. Loss of the 60KVA generator on 21 December 1968 proved the need for continuous power on the radar docks as the backup generator was unreliable and always on the verge of breaking down. Continuous stabilized 400 cycle power is essential to the squadrons mission.

(2) The repair of squadron revetments and roofs is a continuing item on this report. Damage from the 27 July 1968 rocket attack and 5 September 1968 tropical storm is still to be repaired.

(3) Lack of ground support equipment availability has caused undue delay in the maintenance effort. Garwood tractors are the main problem, as their availability to move aircraft from the revetments to the radar docks is at best marginal. Movement has been delayed as long as six hours due to the lack of a Garwood. One to two hours is the

045 DENRUE
4000/1

standard waiting time to move aircraft. The problem is so serious this squadron has resorted to the use of a borrowed Air Force tractor to move aircraft in order to maintain the work load. At the present time, all weapons systems work must be done on the radar docks, due to the availability of one NR-10 Air conditioner unit. If another NR-10 unit was available, 35% to 40% of the radar dock work load on computers and the INS would be handled in the revetments. This would alleviate the Garwood situation to some degree.

(4) The present procedure of hot refueling presents a needless hazard to flight crewmen and ground personnel. Sufficient ground support equipment would eliminate the requirement of hot refueling. The lack of Garwood tractors and NC-10A electric power units necessitates hot refueling. This command is desirous of eliminating this hazard to preclude serious if not fatal injuries to squadron personnel.

(5) Shortage of Comm/Nav MOS 6214, 6 under T/O of seven E-5 through E-7, with the one leaving shortly, will leave this section below operating minimums.
