3 October 1972PART II  
NARRATIVE SUMMARY

1. (C) The month of September saw VMA-311 heavily committed in combat operations over Military Regions III and IV RVN. One of the highlights of the month was the successful completion of 100 combat missions by five highly qualified pilots. Due to the outstanding maintenance provided by the maintenance department the squadron was provided 81% aircraft availability. The squadron was fragged for 26 daily sorties. Those sorties that were cancelled were due to weather and cancelled by higher headquarters. Two aircraft sustained battle damage from ground fire and returned to base safely. One aircraft will require depot maintenance and is awaiting a one time flight to rework.

2. (U) The squadron joined five new officers; 3 pilots, one ground aviation ordnance officer and one aviation avionics officer.

3. (C) The squadron weathered two extraordinary events.

On 3 September as the result of a violent monsoon rain, the squadron offices and readyroom were flooded under 10½ inches of water.

The second noteworthy event was the explosion of the VNAF bomb dump. The explosion sent a mushroom cloud 6,000 feet in the air, threw bomb fragments over the entire base and closed the airfield for two hours. Four VMA-311 aircraft had to divert into Tan Son Nhut AB since Bien Hoa was closed. More than a hundred VNAF aircraft were damaged or destroyed. Luckily no VMA-311 aircraft were damaged during the explosion.

4. (U) The squadron was honored by the visits of several high ranking dignitaries. Brig Gen. TAYLOR, Lt Gen. WILSON and Gen. ANDERSON toured the flight line and addressed the members of the squadron.
