d. Naval Enlisted.....	0

4. Important Visitors to the Command

a. Major General FONTANA, Deputy Commander FMFPAC, visited Marine Aircraft Group 13 on 21 August. During this visit he paid a visit to the VMFA-323 flight line for an F-4 brief by crewmembers.

PART II - Narrative Summary

VMFA-323 has completed thirteen continuous months of combat operations in the Republic of Vietnam. The squadron delivered 1308 tons of ordnance during 552 combat sorties. Some previous months have had higher sortie rates and ordnance deliveries yet did not reflect the fine BDA reports shown by the squadron in August.

During the month VMFA-323 spent eighteen days on the Hot Pads. Air to Ground Pads accounted for eleven of these days with the remainder being spent on the Air to Air Pad. Air to Ground launches from the Hot Pad were not as frequent as during previous months. The Hot Pad did become more active when it assumed some of the new 500 Series missions which provide an airborne CAP for quick reaction to CAS needs.

Four aircraft received Battle Damage and one of these was lost at sea. The aircrew did an outstanding job of trying to bring the aircraft safely to the deck without benefit of landing gear. A snapped arresting cable resulted in the aircraft sliding down the runway on external tanks. Afterburner was lit and the aircraft became airborne. A great testimony to the General Electric engines. Both crewmembers ejected with minor injuries.

Some of the August highlight missions were:

On 18 August LtCol SLEE (Pilot)/Capt MURPHY (RIO) and Capt DAVIS (Pilot)/Capt GULDI (RIO) supported Marines pinned down by enemy fire. The flight successfully attacked the enemy through intense 50 cal. fire, while faced with 1500 foot ceilings and a rain shower that covered the target area. The FAC's statement pays tribute to the flight and another VMFA-323 flight for their outstanding ordnance delivery during extremely adverse conditions.

Enclosure (1)

The second VMFA-323 flight was led by Maj SMITH (Pilot)/Lt SIMPSON (RIO), Capt BIRDWELL (Pilot)/Lt HUBIS (RIO) acted as wingman. Though faced with the same conditions as the first flight, ordnance delivery was extremely accurate. The FAC states that these two flights were a primary factor which enabled the Marines to overrun the enemy.

During the month of August, the combined Squadron Battle Damage Assessment received from controlling agencies are as follows:

Enemy Killed by Air	10	Confirmed
Enemy Wounded by Air	3	Confirmed
Secondary Explosions	25	
Secondary Fires	9	
Military Structures	76	Destroyed/11 Damaged
Bunkers	73	Destroyed/7 Damaged
	25	Uncovered
Fighting Holes	7	Destroyed
Automatic Weapons Positions	1	Destroyed
AAA Position	1	Destroyed
Roads Cut	9	
Trench Line	375m	Destroyed
Trucks	2	Destroyed/1 Damaged
Artillery Position	1	Damaged
S.A.M. Site (w/missle)	1	Damaged
Radar Vans	3	Damaged

PART III - Significant Events

1. Personnel: Joined Officer 7 Enlisted 18
