CREW CHIEF BACK UP.

STATEMENT OF Major John A. CHANCEY pilot of Swift 53-1 concerning mission 78 of 9 January 1968

At about 0905H on 9 January 1968, Captain R. C. MOORE, in Swift 53-2, and I in Swift 53-1 launched on mission #78 to attempt to pick up the survivors of an H-34 crash. We arrived on the scene (125°/16 from GI #69) at about 0915 and made contact with Scarface 2-1 and 2-2 who had some of the survivors spotted at ZC 124955. Scarface 2-1 and 2-2 guided 53-2 over the spot and 53-2 hoisted two of the survivors out. 53-2 then moved up the ridge to where a third survivor was reported and attempted to let his crew chief down on the hoist to make the pick-up. In the process, 53-2 reported his oil temperature had pegged and he made a landing at ZD 139009. After ascertaining that 53-2 was on the ground safely, 53-1 continued with the rescue effort.

Swift 53-1 attempted to let his crew chief down to pick-up the survivor but there was no break in the jungle canopy large enough to hoist the survivor or crew chief through. 53-1 then moved about 50 meters up to the actual crash site on top of the ridge (ZC 118959) and hoisted the crew chief down to try to get the survivor up to the crash site for rescue. The crew chief popped a smoke and a pen flare when he reached the survivor, and one more attempt was made to hoist the survivor from this position, but with no success. The crew chief was unable to move the survivor up to the crash site because of the extremely rugged terrain and the survivors injuries. The crew chief returned to the crash site on top of the ridge and was hoisted out.

Meanwhile Scarface 2-1 and 2-2 had been relieved on station by Scarface 6-1 and 6-2. Plutoerat 2 was advised earlier to launch two (2) more CH-46's to relieve 53-1 and 53-2 who were running short on fuel. (53-2 had repaired his oil temp gage and was now attempting to pick-up some troops from Nailbrush CP to insert at the site.) 53-1 recommended that the CH-46's then arriving on station insert 4 troops into the crash site on the ridge and have them carry the survivor up to the crash site for hoisting. Since the relief CH-46's were on station and we were short on fuel 53-1 and 53-2 departed for Phu Bai.

JOHN A. CHANCEY

Swift 53-2 launched as number 2 A/C in a flight of two at 0905 9Jan68, from Hue Phu Bai for a survivor pick up of a down Med Evac A/C. The pilots of this rescue were CAPT. R.C. MOORE and 2/LT G.L. LOOMIS.

When we were in the crash area we contacted Scarface 2-1 flight for directions into the pick-up zone (ZC 124955). Since my leaders hoist was believed to be inoperative I went down and effected the pick-up of the gunner and crew chief of the down A/C. They had walked down the mountain from the crash site. The pick-up was made in heavy jungle with a very steep slope.

We were then directed by Scarface 2-1 to the crash site (ZC 118959) where the survivors told us the corpsman was 59-75 yards down hill from the site with a broken leg. He also told us the corpsman was hidden because there had been VC in the area of the crash site this morning.

From a hover over the jungle canopy I tried to let my crew chief down to the injured man however, my hoist cable was not long enough. I moved up the hill to the crash site to drop him off there but before I could I developed problems with my A/C.

I landed at a friendly outpost (ZD 139009) to solve my problem. While shut down the doctor aboard sent one survivor over to the outpost to lay down, there was a corpsman at the outpost.

I got airborne about 20 minutes later, without the second survivor aboard, and proceeded back to the crash site where my leader was trying to put his crewman into the site with his hoist which had been fixed. I orbited to stay out of the way.

When it became apparent that the crewman was not going to be able to get the injured man up the hill by himself Scarface 6-1 and myself went to a Marine CP close by to pick up some troops to help (call sign Nailbrush 14, at ZC 0798)

The troops hadn't showed up after 10 minutes of waiting. My leader had started for Phu Bai with low fuel and so I took off again to follow him in as I had low fuel lites on also.

I didn't pick up the second survivor at ZC 139009 at this time because I believed we were to return immediately.

After dropping the survivor crew chief at Alpha Med and refueling I found they had other A/C replacing us. I returned to Swift line and shut down.

R. C. MOORE
CAPT. USMC

* Line "B" of Man #76 was frugged for a pickup at YD 883138 for a visual recon of TAOR. Contact was "offspring". Two CH-46's arrived at pick-up point on schedule and found no personnel. The AC tried to locate the personnel by landing at Division Ball field and also thru Reaction base with negative results. After approximately 20 minutes of waiting line "B" was aborted.

MAG-36 5-3 had been called 30 min prior to launch time by the HMN-364 ODO to verify that the mission was still on. The Frap officer on duty assured him that it was still a go mission.
