and shut down to await a mission. We checked in with Walnut Hill at 6:55H and were assigned mission 510. (Seaworthy was already covering this mission) We checked in with Dong Ha DASC and they ask us if we were going to Vandegrift to shut down?? I ask them if they had any working aircraft and got a negative. We returned to Q.T. and shut down after calling Walnut Hill and ascertaining there were no missions to cover. Doesn't seem like very good utilization of aircraft, time or money.

due to lack of pre planning with Arty. Much time was wasted in obtaining Arty clearces from 3rd Marines in whose AO the 201 msn was being run. Suggest some prior planning be conducted by the regiments before running future sniffer missions and that all fire support missions be held in check while aircraft are working mission.
