A/C filed IFR for
AN HOA & Phu Bai approach cleared us at
AN HOA via Radar vector.
Donang APCON vectored us to
about 4/060° of AN HOA & said "contact
AN HOA DASSC". We called DASSC on WHAKI

and they said call up on SILVER. We called on SILVER and they started passing mission information to us. We were IFR in the soup at 5000 ft. with two CH-53s behind us at 5000 ft. with time separation and Danang had no comm. with AN HOA.

We told DASC we'd call them back when we got down. We called tower; tower said call GCA. (We had started holding right after land off from Danang) GCA didn't answer. Called tower and they said (again) call GCA. Still didn't get GCA. Called tower and tower said GCA was "down". (HHH-463 pilots say AN HOA GCA has been down for days - ?) Told tower I was switching to Danang Approach Control and fortunately got them and told them I was holding at 5000 at AN HOA and to stop the two inbound helos. AN HOA tower said the weather was 4500 overcast so got cleared to descend to VFR between 6 + 10 miles on the 060 of Ch. 121. We broke out at 3000 feet.
