a. Aircraft Status - The squadron had a NORM rate of 43.4% with an average of 16 F4B's on hand. This figure of 43.4% is due to the following reasons:

(1) Buno's 151463 and 150448 completed calendar inspections during the month requiring 18 days of NORM time.

(2) Buno 151514 inducted into calendar inspection last month remains in a NORM status to date. Total accounted NORM time is 12 days.

(3) Buno's 150418 and 152977 were inducted into calendar inspection during the month and remain in a NORM status to date. Total accounted NORM time is 31 days.

(4) Buno 151416 due to revetment accident was down for total accounted NORM time of 4 days.

(5) Two engine changes were completed during the month. During the month we also have had four fodded engine removals, three have been within the past two days.

(6) All other NORM time for the month was against maintenance of a routine nature. No aircraft had an outstanding NORM factor other than the ones listed above.
