My husband past away March 18, 2000. He was a victim of the Vietnam conflict. I believe that war killed him. He was in Vietnam along the rivers a "River Rat" U.S. Navy 1968-1969 stationed along the Mekong Delta. He never got over that war and I believe it killed him. He had Post Traumatic Stress Disorder 100%. How do I get his picture and name on your web site. Thank you for you time. I believe there should be a plaque to all those who died to soon after that war.
