Mr. Greg Vandergriff

Chattanooga, TN

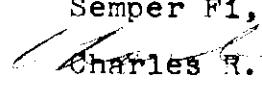

Dear Greg:

Thanks for the letter in August. This year has turned out to be full and then some for me. History just won't stop and give us a breather! The war early this year meant plenty of new work for us. My office has been engaged in writing the first Defense Department history of it. At the same time we have been doing that, we have had to push ahead with several projects for the fiftieth anniversary of World War II, a four-year observance beginning next month. The first act will relate to Pearl Harbor, and will make your evening news in just a few days. As far as we know, Bush is still planning to go to Hawaii, along with thousands of veterans and others, for ceremonies on December 7.

No, I did not get to Denver, but I wanted to go. I'm saving up for San Diego. Did you get a copy of our Nashville reunion picture yet? Sgt Maj Krueger sent out a new roster; did you find any new and familiar names on it?

Have a nice holiday season, and say hello to your All-American wife.

Semper Fi,

 Charles R. Anderson
