Dear Jack:

I got the enclosed address list from the Marine Corps history office. The first address seems to be what you need for pictures of Sam and Waterfield. Your giving their full names and approximate dates of service should be enough for the service records people: Gerald H. Sampson, 1955?-1969; and you know more about Waterfield than I.

Is the camel-screwing gas-launcher in Iraq still taking your time? Drop a line as your scholarship idea progresses, and for any other reason as well.

Semper Fi,
