Chuck,

Quick note. This year, Memorial Day week has been designated as a time to honor Vietnam Veterans. (See attached Presidential Proclamation and related materials.)

I have a line on a guy who moved here from California who spent six years in the Hanoi Hilton as a POW.

I want to reprint the account of how the man in my unit won the DSC.

Also thinking of excerpting part of "The Grunts" for use during that weeklong observance. I need an update on you and any possible photographs you may have of your Nam days and a contrasting "now" photo of you in Japan.

This is all if you agree to be part of this localization theme on the war I am planning to run during the Veterans observance.

If you wanted to write something in retrospect, or whatever I would be glad to consider including it as well.

There are so many mixed feelings about the war I think it is time we laid to rest at least the basic resentment or disinterest towards the men and women who served in the Nam.

Need this material ASAP. Hope you have time to join in.

Best wishes,
