Introduction

Since 1920 the historians of the United States Marine Corps have produced several hundred works on Marine Corps history. These have ranged in length from a few pages of mimeographed material to lengthy treatments bound in cloth and sold by the Government Printing Office (GPO) through the Superintendent of Documents. This catalog lists those publications which are still in print and available either from the Superintendent of Documents (in which case the GPO stock number and price is given) or only from the History and Museums Division (in which case the abbreviation MCH&M is included). Many of the historical works sold by GPO are available free to libraries and similar institutions on request to the History and Museums Division at Headquarters, United States Marine Corps, Washington, D.C. 20380.

Publications dealing with the operational and administrative history of the Marine Corps are listed in chronological order under the "General Histories" section of this catalog. Most of the monographs and case-bound histories which were published concerning World War II and Korean War campaigns are long out of print, but may possibly be obtained from booksellers who stock or are willing to search for earlier Marine Corps histories. Titles of out-of-print books may be obtained from the appropriate bibliographies published by the division.

The division is currently engaged in writing a nine-volume chronological history of Marine Corps operations in Vietnam, the first volume of which is listed in this catalog. Also scheduled for completion is the series of histories of the active duty and reserve infantry and artillery regiments of the Corps. Several squadron histories are in various stages of production. In addition, histories of Marine activities in the Mexican War, 1846-1848, and the occupation of Haiti, 1915-1934, as well as a history of Women Marines, 1946-1977, and a chronology of the Marine Corps, 1775-1975, are being written.

Fortitudine, the Newsletter of the Marine Corps Historical Program, is published quarterly and a free subscription is available on application. Details are included in this catalog. For the convenience of readers, separate order forms for MCH&M and GPO-sale publications have been inserted.
