

Dear, 2 May

Sending this tape for family consumption. You'll probably get tired of it after you take it around everywhere.

Getting it to the KC group won't be hard - even a free evening you might bring in for dinner & let them hear it. Of course, for that's group it takes more planning, but since the Mass are going to be in Garnett the weekend of the 17th, maybe you can let them all hear it at once & then record all their voices for me (take 2 tapes but make take that much).
Not 2 letters

Today, one from Len +
one from Aunt Marian.
Plan to write to both
back.

All I could think of
all evening were your
crabs - you will taking
them today (later on
since it's still May!
at home). Anyway, I
sure am anxious to
hear how you did. I
love you. Will be nice
to have that behind
you, nest - cezas?

Am in a talky
mood, but no tapes,
so I'll write instead.
You'll see how much
fun I had making
the family tape. Tell
the family to excuse

blurry parts, but my
rear gets sore + I shift
around + it blurs the
tag + now + then.

It's been a great day.
Work just clicked
right along + I'm in a
damned good mood.
Oh, I'll have plenty to
complain about soon
enough. On about June
20 we have I.G.
inspection + as it draws
closer we'll have
practice formations +
inspections. That's
what I hate most -
oh I hate it. But it
must be endured.
Just glad that over
here it happens only
once every 6 mos.
instead of twice a month.

Hope finances are ok.
I didn't worry about
the overdraft. By that
time the money was
in the mail & I knew
it was only a temporary
embarrassment. Honey,
are you checking the
water in the car? You
didn't say yet & I'm
worried a little about
it. Also, the insurance
bill comes this month.
Remember to put info
in front of check book
& the amount you send
for quarter instead of
yearly payments. Also,
if your's lost it, just
have the family get
a hold of Ted Barrett
& he'll tell you again.

Hope to get to R.A. middle
of next week. I promise
I won't spend too much
but I'll get a few things
& send R & R savings home,
OK?

Wanted to write the
Potter, but Sweeney gave
his Cr. Fr. dictionary
to the Col, the other day.
When he gets it back,
I'll write.

Can't wait to hear
your reactions to my
tapes. Hopefully I'll
hear you got them
by tomorrow.

Sweeney & I had a good
talk last nite about
religion - it was good
to talk sort of intellectually
for a change. I love
you. Hope you're not

too nervous, Calm down
& take my earlier
advice about a good rest
beforehand & I think
you'll do OK. I need
you so much. No letter
yesterday or today but
I filled the gap by
listening to your tapes
once more last night
before I recorded. I
love you, you do wonders
for me. But by June,
I'll need your support
to get thru the BS of
inspection. I know
I'll be pulling my hair
especially if preparations
eat into my writing
recording & sleeping
time. Be prepared
to return the favor

of forbearance soon.
I love you.

I guess I'll get to
writing the Macs &
Lew. It's so good that
everyone keeps in touch.
Good luck on the
warming days of the
college-girls! Lena,
I love my wife & shall
be able to be more my
wife & soon a mother
after our new phase
of life begins next
Spring. I Love you.

Can't wait to see
the pic of spring & ~~the~~^{the}
Was interrupted by a lesson
in my reading for
awhile. Not much
else to add. It's a
beautiful full moon
nite and I feel so good.

I love you so much.
Really feel it tonight.
Hope you like the tapes
so far. It's so much
fun (guess I've said
that before).

Until tomorrow,
comme toujours, je
t'aime.
