

Dear;

13-14 Nov

We have a guy who just got back from R+R (whose first name is Les. (don't know his last name) but his initials are L.S. Well, his birthday is Nov. 16. He'll be 21. So we'll have to have a blow-out that nite.

all is going well. Went to sleep listening to S+G & Judy Collins last nite. Then shaved with the Beatles this afternoon. That's the extent of exciting news. Oh, yes, I ruined (I think) my last roll of film. It was a beautiful day, so I thought I'd finish off my roll (which was already ill-fated due

to the screwing last
week when I found
out my battery was dead.
So I get some good
pics of the valley &
the guns firing. Then
I returned to my hut
& open the back before
I rewound the film
into the little spool.
How intelligent! So we
may or may not be
able to see in sun-
streaked blotchy color
my new habitats. Damn
I'm dumb. It takes
real brains to fuch
up such a simple
camera's fix.

Been toying with
the idea that after
I write some "pad
work" letters for

job applications that
if they'll allow me to
at least send in
written resumes for
jobs (altho I realize
final hiring will depend
on a personal interview
after I get back) that
you can type them up
for me + get my
transcripts from K.U.
That would help a lot
since I fear my writing
them out wouldn't be
too cool or legible. OK?
Surely you could work
that into your horribly
busy schedule.

What I'd have you
do is the next time
you're in the city call
Francis. It would be
easier to explain

what we'd like her to
do for us. I'd like her
to send me 2 copies
of the State's general
resume forms they
offer and send you
about 6 or so. Then I'll
fill out parts of it in
my own words & you
(as my personal secretary)
can put it in highly
coherent form & then
send copies to the
addresses I find ^{that} might
accept this stuff. How's
that for a plan? Well
I'd just like to know
I've got some things
going before I get back.
I'd like to be assured
of a July job by mid-
May. As...

Also, I've had more financial thoughts. Saw today that P&G stock is up to \$111.50/share. It's doing very good this fall. Now, the way I see it, each of us, counting the stock value, should be getting over \$7000 apiece. I'm scared of the stock market until the war is over. I think it will stay high until the readjustment hits around the end of next year as we ~~are~~ disengage. So I'd like to sell our stock when we get it. Then we could buy a VW (\$2,000), pay off the \$500 on my life insurance (for the first 2 yrs) I owe + am paying interest on, and

pay off the \$1500 at
Security National due
a year from Feb. Of
the remaining \$3000 or so
I'd take \$2000 & put
it in a bank (not S+L)
and use the remainder
to invest in some furniture
etc. as we move.

Banks have a new
loan system now where
you put money in
a saving deposit &
then borrow the same
amount. Then the 5%
you earn (if you have
over \$1,000, they pay 5%
instead of 4 1/4%) is
put in on the interest
on your consumer loan
& you pay only the
remaining \$700 or so.
Now, with \$2,000 loan
& our car we could

buy a new Fury after
March of 1970 (prices
fall then + taxes are
lower for 1970 if we'll
wait until 1971 (Jan)
to buy it since the new
law is you pay taxes
on the new car for the
whole year if bought
after April).

It's a good deal to
be you like that, because
when you get done, you
have the car and the
\$2,000 clear in the bank.
Thank god I know a little
econ. (Thank you Dr.
Pritchard). I'd eventually
like to get back into
the stock market, but
it's such a risky deal
that I'd like to wait
until we have a sizable

amount of solid savings
in the bank + STL before
we play the market.

True, in the long run
you can get a greater
return in the market
but you can lose a lot
too. I think this is
a wise course. What do
you think?

Must get to work,
Love, So, I'll try to
take after duty, OK?
Je t'aime. Only 5 more
months!

Jon Lynn
