1. (C) SITUATION:

a. Enemy Forces: The enemy will make every effort to hinder the pacification program by conducting simultaneous and coordinated attacks against RF/PF forces in the populated areas and surrounding outposts. The enemy may be expected to establish ambushes along likely avenues of approach used by ground relief forces and to interdict likely helicopter landing zones within their capability. The survival of the Territorial Forces and the pacification program will depend on the speed with which friendly air, artillery and ground support can be rendered.
