7 May 1967II NARRATIVE SUMMARY

During the month of April, Company "A" remained at DaNang under OPCON of the 7th Engineer Battalion. The battalion (-) and a platoon from Bridge Company billeted with this battalion, remained at Chu Lai. "D" Company continued to assume complete responsibility for maintaining and upgrading 25.76 KM of route # 1. The letter companies continued to maintain 2.5 KM of route # 22, approximately 2 KM of interior road net of FLSG-B, the CLDC-ASP site, 2.4 KM of 5th Marines CP access road, 1.5 KM of 3rd Battalion 5th Marines access road, and 2.3 KM of the Task Force X-Ray interior road net. The above mentioned work utilized 1667 mandays and 5043 equipment hours, using 25090 cubic yards of fill and 9608 cubic yards of rock. The following culverts were installed: 60 feet of 12 inch, 90 feet of 18 inch, 32 feet of 24 inch, and 80 feet of 48 inch. Two hundred sixty-nine (269) bags of cement and four hundred sixty-seven drums of asphalt were used. The quarry operation produced 5548 cubic yards of rock. The Battalion continued to support the ROK Marines by maintaining 20 KM of roads and a water point. During April the six (6) water points operated by the Battalion produced a total of 3,811,316 gallons of water. During the reporting period two (2) men left on emergency leave, one (1) man was accidentally shot in the leg by another Marine while on an Ambush Patrol and one (1) man was injured by an Army 81MM Mortar round that was shot into a 9th Engineer Battalion Borrow Pit. During April the Battalion joined ninety-one (91) enlisted men and eight (8) officers and transferred twenty-eight (28) enlisted and one (1) officer. One officer terminated his TAD with the Battalion and returned to MAAG Taiwan. The Battalion Reconnaissance Officer made a bridge reconnaissance from BT323217 North to BT232338 and a bypass reconnaissance from BT323217 South to BS642747. The Battalion completed the decking of the Warren Truss Railroad Bridge at coordinates BT498067 and constructed a Steel Stringer Bridge at coordinates BS568979. A combination tactical ferry at coordinates BS597927 was removed. One (1) well was drilled in the Battalion Area, to be used for the Battalion cantonment. The Battalion completed a one-lane fair weather road from BS685992 to BS698977, and continued work on the widening of route # 1 from BT522044 to BT379174. A Tank Trail was constructed from BT526106 to BT529106 and from BT52113 to BT519116. The Battalion completed two (2) covered maintenance facilities, a 30 feet by 46 feet building for 1st Motor Transport Battalion and a 33 feet by 28 feet building for 9th Engineer Battalion. An LSA for 196th Light Infantry Brigade was completed and an ASP for the Army Logistic Command was constructed. A 45 foot span of M4T6 Balk Deck Fixed Bridge was removed at BS568979. Under construction are two (2) miles of interior roads for the U. S. Army Logistic Support Group.
