Summary: 196th Lt Inf Bde continued operation
ATTLEBORO with Co C, 3/21 Inf conducting S&D
operations in AO-1. At 0043 hrs, C/3/21
engaged two VCS at XT148488 with one VC KIA
(POSS). Co C, 3/21 Inf continued operations
throughout the day and closed new base camp at
1510 hrs, (XT140485) with no contact. Co C,
3/21 Inf conducted three squad size ambush
patrols commencing at 1930 with no contact.

3/21 Inf elements securing PHILCAG area
received SA fire and returned the fire with
M-16 and M-79. There was no further contact
on the TAY NINH perimeter.

2/1 Inf (-) terminated operations in AO
KAMUELA and commenced return to TAY NINH base.
All elements not extracted from DAU TIENG will
be extracted on 5 Oct 66. Lt Col Weddel
reported that all elements at DAU TIENG were
resupplied by 1800.

Based on a report sent to the brigade
from sector, 3/82 Artillery fired 92 rounds
of HE on a suspected VC force of 3 companies
vicinity XT1747, XT1748, XT1746 and XT1745
with unknown results.

N/A			N/A
N/A			N/A

Results of Search

Note 1. The requested copies are enclosed. We regret that some of the copies may be of poor quality; however they are the best copies obtainable.

Note 2. A search of these records failed to locate any entries/files pertaining to the individual named above..

Note 3. These records are not on file in this Center.

Note 4. We suggest you contact the office shown below in order to obtain copies of the desired records.

Note 5. The requested record has been lent to the office shown below and may be obtained by writing directly to that facility.

The Privacy Act of 1974 does not permit the release of a social security number or other personal information to the public without the authorization of the veteran concerned; therefore, we have deleted personal identifying data relating to other persons.

Morning reports and personnel rosters are available for most Army organizations beginning with the year 1912; however, they were discontinued in 1974. EXCEPTION: Personnel rosters for the years 1944, 1945, and 1946 were destroyed in accordance with the General Records Schedule.

Morning Reports are available for most Air Force organizations for the years 1947 through 1966.

Morning Reports generally contain the name, service number, and rank for those members of the unit who experienced a change in duty status such as discharge, death, temporary duty, absence, return from absence, reassignment, period of hospitalization, etc. They rarely show specific details about a unit's activities or movements, nor do they reflect accidents/injuries that did not result in the hospitalization of the individual(s) involved.

Personnel rosters were prepared on a monthly, quarterly, or semi-annual basis and generally list the name, service number, and rank (but not home address) of all members assigned to the unit on the date the roster was created.

This Center is unable to perform the extensive research you have requested because of staffing and budget limitations. If you wish to verify a specific event or personnel action, please furnish the month/year in which it occurred and we will conduct a limited search for the desired information.

Additional information is needed in order to locate the requested records. Please provide the items indicated below and resubmit your request to this Center for a further search.

This Center is prohibited from releasing prison records except to the U.S. Disciplinary Barracks, Fort Leavenworth, KS. We are, therefore, referring your request to the office shown below for a determination of releasability.

The Department of Defense Privacy Program, 32 CFR 310.41(d), prohibits the release of the home address of current or former service personnel. We are unable, therefore, to furnish the information requested.

For unit and after action reports, please write to the following: National Archives, Archives 11
8601 Adelphi Rd.
College Park, MD. 20740-6001
