

276 pages of the January 1968 Division TOC reports provided by Bruce Flaherty in 2004. Mr. Flaherty is a veteran of D/4/3d Inf. These documents cover the entire division and yet include a great deal of the detail. Some of the index and time information found on the left side of the page has been cropped from the images. Only the first page for the day had the headings. The first three pages of 30 January 1968 are missing. In transcribing the headings including the date was added to the other pages to help index the information. Some spelling errors may be corrected, but abbreviations are not. Mr. John J. Williams also a veteran of D/4/3d Inf. proofed and corrected typing errors in the transcribed document.
