3	0940	23d Inf, MAJ Pointer, PMO, Emergency traffic only is allowed on roads. Ntify: TFA, LTC Henslick; DISCOM, Sgt Tom; G4, Sgt Horan.
4	1300	TF Americal, Sp Hornes, 2-1 Inf, BT525108, 231241H. Bnkr#120 to 122 obsr civ in wire between them, eng w/CS w/unk res.
5	1300	TF Americal, Sp Hornes, 2-1 Inf, alert cond WHITE, eff 1900H.
6	1620	101 Abn, Initial Report fr Camp Eagle. Area indicates minor dam to buildings, hangars and maintenance tents, some phone lines are down. 1xman killed and 3xwounded due to falling trees. Further update will follow.
7	1700	XXIV Corps, CPT Glass, ROK Marines, ROK Marines report extensive dam in base area, neg cas. At 0300H water was 40-60" deep. In Binh Son refugees camp to NW had hvy dam, portion of QL#1 flooded, private homes had mod dam, some gov't buildings w/hvy dam. In Sin Tin, several building w/hvy dam, 1xbridge on RT#6B washed out. In Duc Pho, 120xhomes w/hvy dam, 3xdispensaries w/hvy dam.
8	2400	Typhoon Hester struck Chu Lai Combat Base today fr 1000H to 1500H 23 Oct 71, causing severe property damage and light casualties. Rain and high winds continued through 1930H. This message provides an initial assessment of current situation at Chu Lai Combat Base. Security of Chu Lai is intact. Perimeter security is tactically sound, external security is normal, fire support bases are operating. All forces have been placed on alert condition YELLOW. Internal security is being provided by increased Military Police patrols and unit interior guards. General damage appraisal: a. Casualties: One (1) dead, nine (9) injured. b. An estimated 75% repeat 75% of all buildings were destroyed or seriously damaged. The remaining 25% with few exceptions received minor damage. Typhoon-proof hangars of steel girder construction were completely demolished. c. All electric power except emergency generation at the DTOC and other isolated installations is inoperable. The main plant is operating but distribution is not possible. d. All water supply is out. Water points are operating and tank trucks and trailers are providing sufficient emergency supply for all troops and messes from available stocks. Potable water production will not be restored for 24 hours. e. Mess facilities are extensively damaged, however sufficient Class I is on hand and adequate temporary facilities are operating. f. TOE equipment damage was limited to helicopters, radio antennas, and other isolated items. Helicopters damaged seriously include approx 8xOH-6A, 20xUH-1H, and 5xAH-1G. Accurate count cannot be obtained because of collapsed hangars. Problems and assistance required: a. Health & Sanitation. Damage to latrine facilities was extensive. Refrigeration is not available, therefore food spoilage is probable. b. Shortages of roofing materials, bunkers, carpenter tools, nails. Specific requirements will be identified separately. c. Skilled engineers labor to assist essential repair work. Delay of 26 Engr Bn standdown and commitment of 39 Engr is essential. d. Contractor support to restore power and telephone systems. e. Bedding to include canvas cots, air mattresses and blankets may be required because of extensive water damage. f. WD-1 wire required to restore communications. g. Power restoration requires the following: (1) Butterfly fuses: 2 amp, 5 amp, 10 amp – 100 ea.
		15 amp, 25 amp – 50 ea; 40 amp – 20 ea. (2) Disconnect fuses, cartridges, 5 amp, 10 amp, 15 amp, 25 amp – 50 ea. (3) two line crews, one polecat. (4) If there is no transformer damage, power can be restored in two to four weeks. h. Transportation support for cleanup and repair work is required. Additional light truck support will be needed immediately. 6. An immediate reassessment must be made regarding disposition of Chu Lai. Restoration to condition originally presumed in negotiation with ARVN will require a massive construction program and could not be completed before 27 November. 7. Request also that consideration be given to a more rapid Keystone program to reduce sooner the population of Chu Lai. Greater demands for C-130 aircraft, additional LST support, and more rapid equipment processing through DNG Support Command would be required. Turn-in of equipment in less than programmed condition would also be required. 8. Subject to your consideration of the above and any decisions resulting, repair work and reconstruction will be initiated with materials and resources available as thought full restoration will be required; the current Keystone program will remain unchanged except for some delay in 26 Engr Bn.
9	2400	Inclosure #1: Unit Locations.
10	2400	23d INF DIV OPS SUMMARY. Div units reported light contact in their combined TAOI with the 2d ARVN Div & 1 st Special Bde, as Tac air and artillery provided support. There were no enemy losses or US casualties.
