- I The Privacy Act of 1974 does not permit the release of a social security number or other personal information to the public without the authorization of the veteran concerned; therefore, we have deleted personal identifying data relating to other persons.
- I Morning reports and personnel rosters are available for most Army organizations beginning with the year 1912; however, they were discontinued in 1974. EXCEPTION: Personnel rosters for the years 1944, 1945, and 1946 were destroyed in accordance with the General Records Schedule.
- I Morning Reports are available for most Air Force organizations for the years 1947 through 1966.
- I Morning Reports generally contain the name, service number, and rank for those members of the unit who experienced a change in duty status such as discharge, death, temporary duty, absence, return from absence, reassignment, period of hospitalization, etc. They rarely show specific details about a unit's activities or movements, nor do they reflect accidents/injuries that did not result in the hospitalization of the individual(s) involved.
- I Personnel rosters were prepared on a monthly, quarterly, or semi-annual basis and generally list the name, service number, and rank (but not home address) of all members assigned to the unit on the date the roster was created.
- I This Center is unable to perform the extensive research you have requested because of staffing and budget limitations. If you wish to verify a specific event or personnel action, please furnish the month/year in which it occurred and we will conduct a limited search for the desired information.
