DEPARTMENT OF THE ARMY
HEADQUARTERS, 5TH BATTALION, 46TH INFANTRY
198TH INFANTRY BRIGADE (LIGHT)
APO SAN FRANCISCO 96219

SUBJECT: Guerrilla Activity

5 April 1968

VC Local Force guerrillas operate nightly in Binh Thang village. Reports from village chief of Nuoc Mau, Le-Can states that LF VC live in Tri Binh 1. They operate in a circular movement from Tri Binh 1 (H), via 563986 to Tri Binh 2, 3, and 5, and then to Nam Binh 3, via 573958, then move north to Tri Binh 1.

Following are names of known VC:

Tri Binh 1 (H)

- 1 Ho-Iy
- 2 Huynh-Nhan
- 3 Do-My (Has M-16, and speaks English)
- 4 Huynh-Binh
- 5 Pham Leo
- 6 Pham Duoc
- 7 Nguyen Tat Quy
- 8 Nguyen Trao
- 9 Nguyen Hy

Nam Binh (H)

Nguyen Quang
Huynh Binh
Vo-Loc
Vo-Miet
Nguyen Nghia
Nguyen Toa
Nguyen Hoang
Nguyen Than

The above are all armed. Have M-79,
AK-40, AK44, and AK-47 confirmed.
Other weapons mixed and unidentified.

Above are armed with unidentified weapons.

CONFIDENTIAL

Approximately 60 minutes after arrival at 1630, 3 men (1 S2) of CL2 met LT George and told him of some intelligence information they had concerning VC activity in village ^{my Hue} May Way III. Intelligence concerned an estimated 2 VC Battalions in the Southwest West corner of Seaside. CL2 requested they join them in an operation which was planned with B/2/6. LT George agreed. D26 was to provide a 12 man force broken down into 3-4 man groups. One on the East, one on the West and one on the North side of May Way III, 602982. CL2 was to provide the sweep element, 3 men, from the South and force the VC into 26 element. CL2 element began firing and the VC moved South into his kill zone. 0140 Illumination was requested and the action lasted about 1 hour. D26 was firing at VC muzzle flashes and CL2 was firing from this positions. It cannot be determined who shot whom. CL2 team made the body count. 26 remained in position. It was too far to carry the bodies C26 assumes after the reaction force left. All bodies were searched with negative results. Some were dressed in civilian type clothing, some were only $\frac{1}{2}$ dressed. D26 feels they were caught by surprise. The ages ranges from 16-35 years old. CL2 has the weapons. Captured weapons are 1 M1 carbine, 2 M26 frag grenades, 1 pineapple grenade, 1 AK47 magazine and 3 carbine magazines. The weapons and equipment captured is old and in fair condition.

Relayed to Bde 33 1015 11 April 1968.

MSG NO 167

TIME 2145

12 Apr 68

FROM: Riverboat South TO: TOC

We are under mortar fire, we've had 4 incoming rounds so far from grid 658012. I would like to have artillery on that grid. The rounds landed about 30 feet from the bunkers. The direction they came was due East from our position. Do you have any friendly elements around that grid. I believe Indulge 13's 4 element has a roving patrol. I cannot be sure and I do not know where they are.

MSG NO 168

TIME 2151

12 Apr 68

FROM: Oral Tread Delta TO: TOC

1 quad of the RD team was hit by a group of VC up by Riverboat South's location. The Duty Officer at my location called in artillery. Those artillery rounds could be the believed mortar rounds Riverboat South reported. If they're not the same VC that hit the RD team could still be hanging around that area. My artillery rounds were fired in grids 628020, 630017.

FROM: Riverboat South TO: TOC

This is a continuation of first message after Oral Tread Delta came in.

Riverboat South

PLEASE hold off on this artillery. Those rounds coming in could be Oral Tread's artillery coming in. There are no more rounds coming in at this time.

ACTION: Relayed to Bde at 2300hrs.

Between 1300-1330 hours a member of the Arty at Am observed some Vietnamese suspected VC coming off hill at coord vic 655945 proceeding into marshland towards Am. The Vietnamese stopped at the site where B/2/6 dropped some ruck sacks during yesterday's fire fight. As best as can be determined the artillery initiated the request for fire. Arty FDC ask B10 for permission to fire, was informed that he could not grant such request. CPT Sanders, Arty CO, requested of CPT Lamb, CO B Co, for permission to fire. CPT Lamb informed him that he could not give such permission, but if arty had permission to fire to go ahead and fire. The arty received clearance to fire by Arty 10 (so we were told by arty), the gun was boresighted on the suspects and five rounds were fired. At the time the rounds were fired B/1/6 (-) was at Am, B/2/6 did not have an FO with him. The Vietnamese who had come down from the hill towards the equipment started running back into the hill once the firing started. After the fire mission was completed the Arty CO sent some of his element off LZ Am to the equipment to police it up for B/6. While policing the equipment they received sniper fire from the hill where the Vietnamese had been seen retreating to. CPT Lamb first learned of the civilians being injured and killed when one of his personnel told him at the TOC. An officer from Arty saw the wounded and dead civilians when he went to police up the equipment. The vietnamese wounded were sent to LZ Gator via Strongman 6's C&C ship. 2 litters, 3 walking wounded. Dust off from Gator at 1345 hours.

Investigation Discloses:

1. Fire request from arty to 5/46 TOC for clearance gave target as suspect VC making off with equipment.
2. Arty 10 reports fire request originated from "Some B Co element." Arty Btry CO did not see civilians hidden from view behind hillock.
3. Rounds landed where desired. Results on targeted pers was that they dispersed.
4. 10 casualties moved toward Am, intercepted by Arty element going to police up ruck sack left previous day by B Co.

The following is a summary of events leading to ER6's incident. At 0930 21 April, ER6 completed securing of PZ at 502900 for CA of CL6 moving North. ER6 moved NE in a sweep search to BS522906 to establish NDP and ambushes in local vicinity. This was hill 56 where the platoon had been on the previous week. The platoon leader halted the platoon to give some instructions, he had set down his pack and as he stepped back he set off a bouncing betty mine wounding him and several others. As personnel began to move to the aid of the wounded, 2 more mines were set off wounding several others, all total it is believed that the 1 BB type mine and 6 others thought to be homemade with trip wires were set off before extraction was completed. It appears that this area was mined and booby trapped since the platoon was there a week ago.

Results: 3 KHA, 12 WHA, 3 or 4 of which are serious. 3 M16 rifles were left in the mine field, 1 or 2 sets of web gear, 1 steel helmet, and 1 radio were left in the area. Gunships attempted to destroy this equipment, then arty fired 155's on the hill followed by air strikes of napalm and bombs. Plans are for 1 squad with APCs to go back to search area and police up anything that was left behind. H&I on hill 56 until 0630.

CASUALTY LIST:

KHA: MRDJENOVICH, VAN AVERY, RUDD

WHA: EHRET, WRAGG, HANLEY, LOVELL, BONDE, BRENNER, RODGERS, CANNON, WILLIAMS, HOLDER, RUSH, WOJTUSIAK, AND WHITEHEAD

The following is a detailed listing of happenings when TOC was informed of ER6 incident:

211118 April: R2 to TOC:

~~CONFIDENTIAL~~

ER6 hit mine and booby trap area, entire area seems to be mined, trip wired from C-ration cans. Location: 522906. 1120 dustoff called, 1128 first dustoff arrived and reported all but 4 or 5 men are wounded. Gunships are with dustoff for protection, 2nd dustoff enroute for more litter patients. 1140, 2nd dustoff arrived. 1135, C6 arrived in utility from Chippewa to estimate situation and help extract what dustoff cannot carry. Entire unit to be extracted and return to LZ Gator if not wounded or very lightly wounded. 3rd mine exploded at 1144, 3rd dustoff on the way. C6 now going into area, 2nd dustoff departing, 1146 squad standing by ready to reinforce. C6 on ground in charge of evacuation and extraction. 1155, ER3 says mines are everywhere, he can see 4 from his location. All choppers must land on same spot because trip wires are everywhere. ER3 on last dustoff. Everyone off. C6 is rechecking area. ER6 reports some web equipment with M26A1 attached were left behind, also some M79 rounds were left as some of them went off when first mine was hit. 1205, C6 reports some weapons seen in area, fuel to low to remain, dustoff carried some minor WHA and some unwounded to 2nd Surg, vehicle dispatched to that location to pick up men not wounded and also equipment. Gunships remain overhead. 1215, CO departed for area to extract equipment and arty IO will call in arty in attempt to blow mines.
