1. Enemy Initiated Activity

Enemy activity showed a definite increase in our AO, as evidenced by the several ground attacks and attacks by fire directed against our night defensive positions.

2. S2 Assessment

Enemy activity during the coming week should remain at the same level as the past week. The low illumination period continues, making it possible for the enemy to conduct small scale ground attacks, as well as, stand-off attacks by fire. The enemy will continue to employ mines and booby-traps to harass US/GVN troops while avoiding major contacts.

Enemy Activity

Enemy activity has decreased during the past week with very little initiated activity.

S2 Assessment

The present low level of enemy initiated activity is expected to continue this coming week. A possibility of local force VC harassing pacified areas and friendly installations will probably be repelled by the rise in illumination - most enemy efforts will probably be on resupply and retraining.

1. (C) INTELLIGENCE REPORTS: 14 to 15 July 1970

Unknown, 141410, BT353066.

Agent Report fr BINH SON, C/3 rating, 141525: 50 sappers loc vic BT389003, they have 15 122mm rkts and 30 82mm rds and 10 laborers carrying 4 axes, 5 large knives and rice, they moved to above loc fr QUANG NAM(P) on 12 July, 100 more sappers are to be moving to above loc in the near future. VC cadre stated to villagers that they would launch mortar and rocket attack against CHU LAI Airfield fr 15 to 18 July
(OB Comment: Possibly members of 70th Rkt Bn presently held at BS4099 or resupply and replacements for above unit.)

Info fr LY TIN, C/2 rating, 141700: At 131900 there was 1 VC plt hidden at BT405015, BT414023, they have already moved to BT453024, BT448027 and BT455028, intention: Attack our friendly forces in KY SANH 14 to 20 July, they have many crew wpns and commo radios.

Info fr LY TIN, C/3 rating, 141700: Every night there is 1 VC sapper group, comd HUI KHUONG, at BT393092 and BT390091, intention: Destroy community offices in KY CHANH(V) fr 14 to 20 July, indiv wpns.

Field Information Report fr [illegible] PIC, 8 July: Rallier PHAM CU. During the Source's stay at KY NUE(V), hamlet 2, he saw a number of personnel carrying rice fr KY LONG(V) to a mountainous area of DOI THON(H), KY NUE(V), BT243109. They also worked at paddyfields of hamlet 2, KY NUE(V). Also, fr KY SON(V),(H) 2 in the direction of [illegible] another number of VC went working at paddyfields of PHUOC LAI(H). The source est about 60 men cultivating at above two places. They told him that they all were the personnel of [illegible]/23 Unit. He dared not go up the area this unit camped in because the VC forbade the people to pass through the area. Talking with these VC personnel, the source understood that they were the political cadre.

Field Information Report fr [illegible] PIC, 8 July: Rallier TRAN THI SO. Since 1968 the VC forbade the people to infiltrate into a area within the coordinates BT230110, BT264125, BT230080, and BT280080, in DOI TRON Hl, KY NUE(V). However, in late 1969 this forbidden area was opened for a period. From early 1970 until now it was again closed. The guerilla of KY NUE (V) stood guard at a permanent station, BT260127, LOC SON(V) beside KY NUE (V). The source did not know where other guarding stations were. Sometimes the source saw the cadre and soldiers leave the forbidden area to go on business or receive rice at KY LONG(V). They were mostly RVN soldiers. The source could not come in the forbidden area, but he est that it was a VC base.

Enemy Activity

Enemy activity has decreased during the past week with very little enemy initiated activity.

G2 Assessment

Agent reports indicate the possibility of increased enemy activity during the period 12-23 July in conjunction with the signing of the Geneva Convention Accords: 20 July 1954.

Reports specifically mention refugee camps and friendly OPs as enemy targets. The high illumination however could cause a delay in enemy attacks.

Enemy Initiated Activity

Harassing fire directed against friendly forces and mine/ T incidents were characteristic of the week's low level of activity.

S2 Assessment

The current low level of activity is expected to continue this coming week. Enemy units will probably continue resupply missions in preparation for the August dark moon phase. Avoid contact with allied forces. In the coming weeks, the enemy will likely become involved to a greater extent in the storage of supplies to be used during the monsoon season. Friendly forces should encounter stiff resistance when interdicting enemy resupply routes, and following the dark moon phase, a general slow down in enemy iniatiated activity should be noted.
