9	1140	(C) Fr Maj Getz to TOC RTO: At 0730 a perimeter search patrol while looking for a crater from last night's explosion discovered 2 140mm rockets outside the perimeter between the well site and the perimeter wire approx 75-100m outside the wire. The rockets were pointed towards the perimeter and I was rigged with wires for electrical detonation but no power source was found. The other was not wired. Each rocket contained an explosive head and motor unit. Approx 100' from the rocket I wicker basket and 1 make-shift launcher was found. The rocket had the following printed numbers and letters: DP 949, 56, 43-67, T, C/21-14, 1-67-ct, and stamped into the body were: 4-68-2329, 4-67-179. The rockets will be buried and detonated in place after a patrol completes a thorough search around the low land around Stinson. The crater from last night's explosion has not been found.
