Annex A (Intelligence Estimate of Possible 1-46 Deployment) to OPLAN 4-72

1. MISSION: 1-46th Inf continues current operations; on order, deploys within 48 hours to any location in RVN.
2. GENERAL SITUATION: a. Intelligence indicators point to increased enemy activity throughout RVN during the Post-Tet Period. Incidents of intensified reconnaissance of allied installations, abortive sapper attacks, ground and mortar attacks, establishment of forward caches and aid stations, and increased infiltration and proselytizing near populated areas all indicate extended late February High Points. Allied military installations and personnel, areas of the Government Resettlement Program and Lowland Population Centers remain most likely targets.
b. Reports have indicated numerous dates as possible beginnings for this increased activity. The period from 19-20 Feb until the first of March, however, continues to be most frequently mentioned.
c. Retaliatory activity in response to increased US air strikes North of the DMZ and in the Western Highlands of MR 1, in addition to President Nixon's trip to mainland China, would tend to encourage an upsurge in the tempo of enemy activity.
d. Areas of RVN which seem particularly likely for increased activity are the Hue-Phu Bai area, the Central Highlands, and the Tay Ninh areas. In addition, an increase in lowland activity might well serve as a screen for the movement of NVA units into Western areas.
3. ENEMY ACTIVITY: Specific area details will be published separately, as particular situations present themselves.

Annex A (Large and Small-Scale Repatriation of US PW's) to OPLAN 5-72

1. (C) SITUATION: a. General:

(1) This annex provides general information concerning the types and methods of repatriation for US PW's. In addition, the instructions contained in the annex are applicable to the recovery of US personnel that may return to US control as a result of escape or evasion from capture by enemy forces.

(2) In a large-scale situation there are more than 20 returnees from any single service or more than 50 aggregate, or there are indications of a continuous flow of released PW's. In event of a large-scale repatriation, released PW's will be evacuated from the SCC to a CPC at Cam Ranh Bay.

(3) A small-scale situation is one in which there is not a continuous flow of returnees, and in which the total number of US returnees does not warrant the establishment of a CPC. In this situation returnees will be evacuated from the SCC to parent service processing centers.

b. Enemy Forces: Current INTSUMS.

c. Friendly Forces: (1) CG, 196th Infantry Brigade: Provides detailed instructions for PRT's and general guidance for processing of returnees.

(2) CO, 95th Evacuation Hospital: Provides for patient care, as required of returnees.

(3) 5th ARVN Regiment: Assists in reception and evacuation of any GVN citizens repatriated by the enemy in the 196th Infantry Brigade TAOI.

2. (C) MISSION: To receive and process returnees in the 196th Infantry Brigade TAOI in accordance with the basic plan and this annex, and to assist in the repatriation of RVN and FWMAF PW's, if requested.

3. (C) EXECUTION: a. Concept of Operation:

(1) Reception Points: Until agreement is reached with the enemy on details of repatriation, initial planning must include provisions for the establishment of one or more reception points anywhere within the 196th Infantry Brigade TAOI.

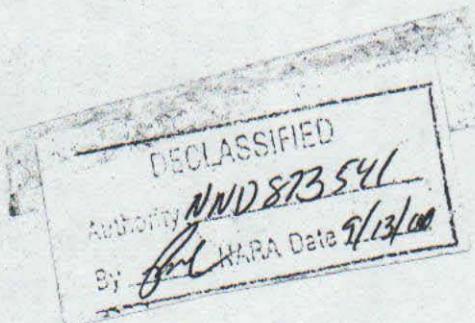

(2) Service Control Center (SCC): In large or small-scale repatriations returnees will be air evacuated, if possible, from the reception point to the SCC at the 95th Evacuation Hospital.

(3) Processing Center: In a large-scale repatriation, returnees will be air evacuated from the SCC to the MACV CPC at Cam Ranh Bay. In a small-scale repatriation, returnees will be air evacuated from the SCC to the below designated centers:

(a) Army - 26th Evacuation Hospital, Long Binh.

- (b) Navy and USAF - USAF Hospital, Cam Rahn Bay.
- (c) Marines - 1st Med Bn, 1st Marine Div, DA NANG.
- (4) Processing of Returnees: The processing at reception points and SCC will be conducted as delineated in Annex C (Reception and Processing Procedures).
 - b. The following information, if available, will be included:
 - (1) Number of personnel recovered and nationality.
 - (2) Name, rank, and SSAN in the case of US PW's; name, rank, and service number of Free World Military personnel; name, company, agency, or group of affiliation of civilian returnees.
 - (3) Date, coordinates, and circumstances of recovery.
 - (4) Estimated physical condition of returnees.
 - (5) Interim disposition of returnees.
 - (6) ETD Reception Point.
 - (7) ETD SCC.
 - (8) ETA CPC or component processing center.
 - c. PRT Leaders will:
 - (1) Provide PRT as specified in Appendix 1, this annex.
 - (2) Immediately provide CO, 1/46th Inf Bn information concerning release or recovery of returnees as outlined in paragraph 3b above.
 - d. Coordinating Instructions:
 - (1) The welfare and morale of US returnees is of prime importance. All reasonable efforts will be made at all stages of processing to provide for their personal, psychological, and spiritual needs.
 - (2) Full cooperation will be extended to any International Committee of the Red Cross (ICRC) or third-country representatives who may be present to observe the processing and repatriation of US returnees.
