<p><b>NOTE: "NOT FOR PUBLIC RELEASE UNLESS CLEARED BY THE DEPARTMENT OF DEFENSE"...</b></p> <p><b>NOTE: (MORE TO FOLLOW)...</b></p> <p><b>NOTE: DUE TO THE HELICOPTER CRASH DURING THE FILMING OF THIS SUBJECT, THE OPERATION WAS CALLED OFF....</b></p> <p style="text-align: center;"><b><u>SUMMARY</u></b></p> <p>On 21 November 1968, at Camp Enari, RVN (approx 390kms NNE of Saigon), elements of the 4th Division Chemical Office, with assistance from the 119th and 170th Assault Helicopter Companies; prepared and began a "people sniffer" mission.</p> <p>The "people sniffer" (Anti Personnel Detector), mounted in a UH-1H Helicopter, collects the ammonia scent in the air, that is given off by the human body. Flying at tree-top level, up wind and over thick jungle terrain, the "sniffer" can detect any recent activity in the area.</p> <p>Once enemy activity is recorded and detected on the "sniffer" meter, a UH-1H helicopter (the Command-Chase ship), drops an E-158 Multi-Point Source Tactical CS Cluster.</p> <p>The CS Cluster is utilized in offensive operations when it is desirable to disable the enemy for a limited period of time. CS, is used because it instantly irritates the eyes, nose and throat. This type of operation brings the enemy from hiding and the men in the aircraft above, can visualize heavy or light enemy activity.</p> <p>During this operation, the UH1H Helicopter carrying the "sniffer" and six men, received small arms fire. The aircraft crashed and burned, killing the six men aboard. The aeriels, of air to ground, shows the UH1H Helicopter, burning in the heavy jungle brush.</p> <p>Film footage was not obtained on the XM 674 CS Cartridge, at this time.....</p>					
<p><b>IMPORTANT: SPELL NAMES CORRECTLY. IDENTIFY ALL PERSONALITIES BY FULL NAME, LOCATIONS, ORGANIZATIONS, WEAPONS AND EQUIPMENT. ENCLOSE FIRST TWO COPIES OF CAPTION SHEET IN FILM BOX, BUT NOT INSIDE CANS, AND TAPE THIRD COPY TO BOTTOM OF CAN. SHIP BY AIR WHEN POSSIBLE, OTHERWISE USE THE NEXT FASTEST METHOD. SEE (AR 108-5).</b></p>
